

Welcome to week 4 of the Greater South Oz e-club.

This week's experiment was with the GoToMeeting system and it was, after a poor start where something went wrong with my logon -must have been me because no one else had a problem. But boy oh boy was it good when we connected, the quality of sound and pictures was excellent. We were able to open websites so all could view or we could open in our own screens and also message one or all participants while the meeting was happening. - very flexible and not too hard to use when logged into a meeting. We will attempt to have a full members meeting shortly.

Membership; while we await the alumni meetings and lists please put on your thinking caps and chat with friends and associates about joining us. It is an exciting time to become a member and be a part of the development of the club.

I am sorry about my "no response comment" last week i.e. *I have not received any comment / s or endorsement* of the documents attached to the email and that were also on our at [website](#). As it turns out it is not possible to comment from the website direct - well that is until today when Graham set up direct email link - highlighted on the members only page - for you to write up your comments/votes. So please give it a go and let me know what you think?

This is an exciting time for the Polio Eradication campaign -read about the latest [wonderful news](#) coming out of Africa and get all the facts direct from RI. (take a look at the fact sheets -click on the right side.)

For our [Rotary info spot](#) this week you will find a story from DG Doug's partners project, Donate Life, Lynne has a personal experience of organ donation -so go see more about this project at this [web link](#).

Cheers for now

Pres. Eric
