What is 'Experiential' Travelling?

Experiential travelling can be defined as travel trip blended with learning through exploring, experiencing, creating, discovering, relating to and interacting with the world around us.

This form of travel is structures yet unstructured, without rules or time limits, and involves being one with the citizen and people around. Travels not only see the places of importance and of tourist interest, but try to live a life as a local and understand, intermingle with them to know the culture, philosophy and life style of the area we are travelling and participate in various local rituals and activities to imbibe the real essence and ethos of the region or the country.

5th Incredible India Tour

Incredible India tours are brainchild of your tour hosts Bhanu & Divya who have always enjoyed giving a personalised touch to their participant during their Youth Exchange activities since 2012. They have always felt that people who come to visit India as tourist, miss the personal touch, care and the local feel of our country, its culture and philosophy. They felt the same experience as a parent when the children or the youths coming or going out of India, are not experiencing the real ethos of the culture and the trips they participate are merely a tourist based trip and a business for someone. This led to the birth of Experiential Travelling. A venture aimed at making travel personalised, fun filled with experiences to understand the real soul of India.

At Incredible India, we invite Rotary members, Rotary Youth Exchange officers and their families and friends who share equal zest for travelling, from across the world for a journey that gives them first hand feel and understanding of Incredible India and an opportunity to see some parts of our country. This tour will surely take you closer to the Indian culture, heritage, philosophy, economics and lifestyle. We believe this will help them enhance their knowledge about India, society and its people.

This is a personalised tour and your tour hosts will do everything to make it a life time trip for you and make you crave for more of India. We promise you, you will not be coming to this tour as tourist. Rather you will be witnessing India as a local and will get a chance to immerse in the most vibrant and local atmosphere of the region. **Remember this is a not another group tour, but tour with Rotary Friends and a global Rotary Family.**

We started this experiment in 2018, and we feel we were quite successful with the first four editions of Incredible India tours with Rotarians, YEOs, their friends and families who explored India with us.
