**ROTARY:
 MAKING A
 DIFFERENCE**

**Club
 night/committees
 Next meeting
 31 July 2017
 5.30 for 6pm**

Febriana and Mum
 Angelina welcomed

Keith's Korner

More bad news with the recent demise of Assistant Governor Elect of Rotary International.

An interesting talk from Daniel Watson on Monday night even for those who like me are still somewhat computer illiterate. I have to say that I still think that the Keith defence is probably as good as any and that is simply "Push the delete button".

In a couple of weeks' time we have our District Governor visiting so it would be good for you all to make an effort to turn out for that club night. It also coincides with partners night.

August is membership and new club development month. I am asking you all to make a strenuous effort to try and recruit new members. At the moment we are holding our own even with some retirements but we can never have too many members.

The last comment to be made is that our latest Romac visitor has arrived. To those who went to the airport to meet her I understand the first assessment is in the next week or so and that will then give some indication of when the operation might take place.

*Our thanks go to Carol and Karen who appear to be almost the honorary consulate for East Timor and to Bernie for his efforts as well.
 President Keith.*

Notices.

Sreychom – Monica gave us an update– see later.

'Ladies Night' play Thursday 17th August \$20 per ticket- see Steve G for tickets or pay into the ECB Charitable Trust account 12-3107-0062053-00 and email Steve.

Febriana our little Romac girl arrived very early Tuesday morning and was welcomed by club members – see photos. She and her Mum are staying at Ronald McDonald House.

DG's visit 7 August -please pay Bob. Members \$5 Guests \$25.

Daniel Watson gave us a very informative and useful talk on how to protect yourself from ransom ware. Avoid malware by not being trigger-happy, having good security and regular backups.

1. Spam filtering – ignore unknown addresses, domains or links. Beware files that mix zip and doc. Website to infection takes 0.5 second.
- 2 Update apps and programs. This may protect you from the latest virus.
3. Education – check out your organisation – send them test emails.
4. Backup regularly –3,2,1- three copies, two formats, one offsite.

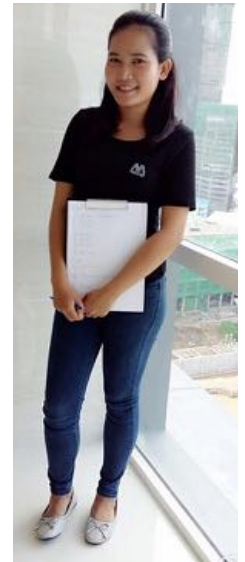

Make sure the backup is automated and the cloud is better than an external disc.
Check the backup regularly.
See the attached two files.

If you are not sure stop/pull the plug/call for help.

Daniel runs Vertech IT Services at the top of Bush road. He is also a Sergeant of Engineers with the NZ Army Active Reserve and a leader of the Tauhinu Sea Scouts in Greenhithe.

Hello from Sreychom! Monica had a good, long chat this weekend with Sreychom, our Inbound 2015 student from Cambodia. Sreychom is doing very well - full of confidence and energy. She is now 5 months into her university study in Tourism. She is also working full time for a property management company in an area of Phnom Penh called Diamond Island. She saw the ad and decided to submit her CV. She got the job offer after just one interview. There are 512 units in the brand new

condominium complex where she works and Sreychom is the front receptionist. She really enjoys her work team, just a small group of 15 who are responsible for running the whole complex and selling the units. Her work is very diverse - she says she basically does everything in the office. Her manager is Malaysian and the tenants are from China, Japan, Korea and other countries. English is the main language of business for her now. She has very little free time, as she works 7:00-4:00, then has uni classes every night from 5:00-8:00/9:00. She has already had one Rotary visitor - Paula, a student from Germany who was here on exchange in 2015 also. Her older sister and brother-in-law are expecting their first child in about a month, making her an auntie. She doesn't live at NFC anymore. She is living with her honorary parents just 15 minutes from work. She is very happy in her work and study and sends her warm regards to all.

Social Engineering Red Flags

FROM

- I don't recognize the sender's email address as someone I **ordinarily communicate with**.
- This email is from **someone outside my organization and it's not related to my job responsibilities**.
- This email was sent from **someone inside the organization** or from a customer, vendor, or partner and is **very unusual or out of character**.
- Is the sender's email address from a **suspicious domain** (like microsoft-support.com)?
- I **don't know the sender personally** and they **were not vouched for** by someone I trust.
- I **don't have a business relationship** nor any past communications with the sender.
- This is an **unexpected or unusual email** with an **embedded hyperlink** or an **attachment** from someone I haven't communicated with recently.

TO

- I was cc'd on an email sent to one or more people, but I **don't personally know** the other people it was sent to.
- I received an email that was also sent to an **unusual mix of people**. For instance, it might be sent to a random group of people at my organization whose last names start with the same letter, or a whole list of unrelated addresses.

HYPERLINKS

- I hover my mouse over a hyperlink that's displayed in the email message, but the **link-to-address is for a different website**. (This is a **big red flag**.)
- I received an email that only has **long hyperlinks with no further information**, and the rest of the email is completely blank.
- I received an email with a **hyperlink that is a misspelling** of a known web site. For instance, www.bankofamerica.com — the "m" is really two characters — "v" and "n."

DATE

- Did I receive an email that I normally would get during regular business hours, but it was **sent at an unusual time** like 3 a.m.?

SUBJECT

- Did I get an email with a subject line that is **irrelevant** or **does not match** the message content?
- Is the email message a reply to something I **never sent or requested**?

ATTACHMENTS

- The sender included an email attachment that I **was not expecting** or that **makes no sense** in relation to the email message. (This sender doesn't ordinarily send me this type of attachment.)
- I see an attachment with a possibly **dangerous file type**. The only file type that is **always safe to click on is a .txt file**.

CONTENT

- Is the sender asking me to click on a link or open an attachment to **avoid a negative consequence** or to **gain something of value**?
- Is the email **out of the ordinary**, or does it have **bad grammar** or **spelling errors**?
- Is the sender asking me to click a link or open up an attachment that **seems odd** or **illogical**?
- Do I have an **uncomfortable gut feeling** about the sender's request to open an attachment or click a link?
- Is the email asking me to look at a **compromising or embarrassing picture** of myself or someone I know?
