 21 January Club night.
 28 January Auckland Anniversary Day

Wishing you all the joy of Christmas

Parting thought for our Christmas dinner meeting, which I omitted on the night, comes from Bob Hope:

“My idea of Christmas, whether old-fashioned or modern, is very simple. Loving others.”

Wishing you all a very happy Christmas, sharing special moments with your families, cherishing memories of those who are no longer close. And may 2019 be another successful one for yourselves, for the Club, and for the communities we serve.

Enjoy safe and happy holidays and looking forward to seeing you all in the new year.

President Jennifer.

Last week.

Notices. - the proceeds from the hamper raffle will all go to the Golf fund raiser. Thanks to Eric who donated back the hamper that he had won.

Rod gave us an update on the golf day – thanks to Auckland Taxis for the ten years of support and the support of district trusts and a rotary trust. All of which produced a very pleasing result. We will be able to give generous support to the Well Foundation as a result.

Christmas function – a very convivial evening was held at McHugh's in Cheltenham.

Pres Jennifer awarded two Paul Harris Fellowships. Steve Goeldner's is for his huge amount of work in his seven years in the club especially lately as chair of the Local Projects Committee. He has also been very involved in the community on the Board of Pinehurst School and was a previous GSE team member. David Aicken was awarded a sapphire pin for his roles with exchange students, GSE teams, the golf and many other activities. Over 40 years in the club! Jan

was presented with flowers in appreciation of her support and involvement with David in his Rotary activities. Unfortunately, this was David's last meeting as he has resigned. They will be sorely missed. Pres Jennifer will be awarding community PHF's to the three members of the Great Barrier Island medical team for over 30 years of service to the people of the

Barrier. They started off on the back of a motorbike and now hold clinics in a purpose-built building with x-ray machines and modern equipment. They are Dr Ivan Howie and nurses Leonie Howie and Adele Robinson.
