 New plans.

**Stay home**

**Keep safe**

Dear Members

Well, as things return to a new normal in NZ

The Plan is to move back to physical meetings on 8 June at the Golf Club. Milford are intending returning on 9 June so this fits in line with them, Milford were meeting with the club General Manager to discuss safety factors in compliance with Covid 19 rules. Further details to follow in next week's bulletin.

I have attached a very useful document on the return to the New Normal as I know a few of you are nervous of the change outside of our bubbles.

Yee Hsien's flights have been cancelled for early June and he is now here until 2 July. Please consider involving him in your or your families activities in the next few weeks. Even this long weekend if you are around. This will aid the pressure on his host family the Browns who have already hosted another student from Germany who has returned home.

RDU subscription; is now being offered in a digital copy. If you would rather be more sustainable and appreciate a digital copy rather than a paper copy, let Steve Goeldner know and we will convert you to a Digital subscription.

I hope the presentation that Alan showed us on Monday inspired you about the art of the possible. Already a couple of members have put their hands up to help out in the Project committee we will need more. Attached is the presentation from tonight. please feel free to send me or Alan any questions you may have. It is highly likely we haven't thought of everything and we have quite a lot to work through.

Next meeting on the 8th I will take the opportunity to detail my plans for 2020/21 and the changes to the committee structures. I will welcome feedback on that but I hope it will make the club stronger.

Regards Sean

Those who went on the Chatham Islands trip will remember Dave.

Alan introduced a new project which is a light show around the road frontage of the golf course or a tree walk or centennial park with LED lights. It would need sponsors /supporters and would run in December. Alan is building a prototype which is solar powered. The concept needs to be profitable and would increase in size over a number of years. Much needs to be done-security,stealing/another club helping ...Other dates are possible.

Seeding finance may be available from the Trust.
