

20th season of tree planting in Mangemangeroa Reserves

June is the month to help celebrate 20 years of planting native trees in the Mangemangeroa Valley Reserves.

There are two dates when you can help plant some of 6000 eco-sourced native trees, grown from seeds collected in the valley.

COVID – 19 All helpers must sign-in and maintain whatever COVID – 19 Level requirements apply on the day.

It's an Auckland Council requirement that all receive a Health & Safety talk before departing to planting sites. The talk will start at 8.45am.

Unfortunately, any late comers arriving after this talk are liable to be turned away.

The popular community planting mornings are:

Saturday 13 June organised by Sth Auckland Forest & Bird with Friends of Mangemangeroa (**FOM**). Or

Saturday 27 June by local Rotary clubs with **FOM**.

Meet by 8.40am, at 108 Somerville Road, Howick in the 'Barn' car park. Children aged over 12 years with parent/supervisor are welcome.

Items to bring: gloves, sound covered footwear, dress for weather protection, sunscreen, drinking water, spade or light shovel.

A selection of ways to help. Some don't involve digging or planting, eg assembling and/or fitting plant protectors (need bring a hammer or mallet for this.)

Your queries are welcomed by:

Forest & Bird / FOM (Graham Falla, 09 276 3092)

Rotary / FOM (Allan Riley 021 534 474)
