

Dear Timaru Rotary Club.

Thankyou so much for sponsoring me \$500 to go towards my entry fee for outward bound. At the moment I am sitting on a tarp in the trees overlooking the bay of Anakiwa. I am doing my 2 day solo experience. Outward bound has helped me realise what I have to offer and what I still have to learn. I now believe I can do things that before I would not have thought I could. I have had tramping adventures, I have learnt how to sail, slept under the stars on a boat, been Cave kyaking exploring, climbed a rock wall with a blindfold on and yesterday I did a backflip off the high pole on the jetty when at the start I could barley jump off. I have made some amazing friends

and learnt not only to tolerate different personalities but embrace them. I have also become alot more aware of the effects people have on the environment and have decided to do my bit by helping dad plant native trees around our farm. Thankyou again, I can't express how much this course has benifited me.

Yours thankfully,

Daniella Cuirney
