

We had a busy day as a club on Wednesday – we supplied lunch and volunteers for RYDA in the morning out at Levels Raceway, the wood cutting crew was in action at the woodshed and the hot dog van was out at McCain Foods for the BA5 event in the evening. I was in the HDV at McCain's and it was a very successful night – the staff at McCain's were lovely and very appreciative we were able to cook for them. It's so nice that we were able to help them out because without them supplying our chips, our van would make only half the money it does! Thank you to all those who volunteered during the day!! Thanks to those who volunteers for the St John's Heart of Gold appeal last Friday too!

A reminder that I have moved the Club Night forward a week – so after our visit to the new St John's building, we will come back to the TTCC have dinner, then a club night to finish off.

Thought this week; (I saw this one on Facebook) Is covid 19 really that serious? Listen up.... casinos and churches are closed. When heaven and hell agree on the same thing, it's probably pretty serious!

Have a great weekend!

Jess
