

We also had a lovely hand written letter from a wood recipient last week – it reads:

“Many thanks for the 2 boxes of lovely kindling. This is very much appreciated. I am writing this beside my nice warm fire, thanks to you all.

Thanks Again,

Margaret Younger”

Along with the thank you note we had a wonder full article in the paper this week about our wood project – Tony will be up for a photo tax next Tuesday! This project is so important for our local community and our wood cutting team and everyone who pops along each week to help does a wonderful job, In my opinion it really encompasses what Rotary is all about!

Sunday saw some of us attend the District 9980 Changeover Lunch. It was a nice day out and our club was presented with the Best Website Award for the district – well done to all our Club members who contribute to our website

Thanks to Piper (Lynette and Lionel’s Granddaughter) for her help this week, collecting the fines, helping draw the raffle and reading the closing thought of the night. I encourage any grandchildren, or children, or partners, to join us in our meetings each week, the more the merrier in my opinion!

Closing thought : *“The secret of change is to focus all of your energy; not on fighting the old, but on building the new” Socrates*

Have a great week!

Jess
