

On Monday, 7 of us along with Murray and Rod from Timaru North and our Science Forum Alumni Rebecca, headed to help officiate at the 'SC Mini Golf Champs'. What a great day out it was! After the fog lifted we had a pearl-er of a day. The contestants played the Temuka 'Muka Putt' and then the Shearer's Quarters. It was the 1st year for the competition and profits raised were to go to the Temuka Museum. There wasn't as many contestants like they had hoped for, but I think it will be a different story next year! After making my own Jarrad come along as "he would have nothing better to do while I was away" - he won the Senior Section! Oliver Black won the Junior section. Jarrad has also won a trip up to Auckland at the end of the year to represent SC at the 'National Mini Golf Champs' (I have been fined accordingly! And for the record "I was not his scorer"!).

Lionel, Lynette and I are off to Dunedin this weekend for the RYE rebound/debrief weekend where we catch up with all our recently return students. I'm looking forward to hearing all the stories! We will also have Yannick coming along this coming Tuesday to tell us about his year away in Switzerland. Followed by a brief club night/committees meeting after his speech.

Don't forget to register for Conference. It looks like a great line up and it's not very far for us to travel.

Closing thought of the week: Chinese Proverb - One beam, no matter how big, cannot support an entire house on it's own.

Have a great weekend!

Jess
