Systems, Service & Tau Huay — Inside the Mind of Avenue of Service Award Winner Rtn Ong Ting Yong

By Rtn Anson Dichaves

From coordinating the 92nd Installation Dinner down to the minute, to championing District 3310 youth leadership, Rtn Ong Ting Yong's Rotary journey has been anything but ordinary. In this candid conversation, the Avenue of Service Award winner opens up about the projects closest to his heart, the ten kilos he's gained since joining Rotary, and why he believes the real reward was never the award itself.

How do you feel about winning the Avenue of Service Award?

Deeply humbled. What makes this award special is that it definitely wasn't done alone, but through the fellow Rotarians carrying the load together with me. I see it as receiving the award on behalf of a lot of people, mentors, committee & event that we've pulled off together. If anything, it makes me want to serve better.

What are some memorable projects for you?

The 92nd Installation Dinner at the Ritz-Carlton this June is still fresh in my mind, where I was deep in the operations, from seating and meal reconciliation down to the minute-by-minute programme flow. It was highly stressful, but seeing the ballroom come alive that night made everything worth it. Thank you President Raj for entrusting me with such a significant & important event. Project i2eye with then ISC Director Rtn Dr Rupesh was also another key highlight in my Rotary journey as I got to observe real hands-on work in the rural villages of Odisha conducting daily health screening with the villagers.

The project closest to my heart right now is the District Interact initiative — having the opportunity to serve as District Interact Chair once more, to advocate for youth leadership, education & empowerment, is something extremely meaningful for me, and travelling across Singapore, Malaysia Sabah & Sarawak - Muar, Kuching, Bintulu, Tawau, Sarikei, Sibü - there's really nothing quite like watching a shy sixteen-year-old build their confidence over a weekend of work in public speaking. Reading through more than 80 different project submissions conceived and executed by teenagers is something that moved me a lot and gives me real hope about the next generation. These young people are the future of Rotary, and I see our job as opening doors for them.

What are you focusing on this year?

This Rotary year I'm wearing two hats, on top of District Interact, I am serving as Vocational Service Director for the club, my very first club service committee role. Vocational service is the Avenue I feel a special pull towards, because it's about bringing our professional skills and ethics into service. My theme for this year's VSC is Continuity, Fellowship & Involvement. We've just had our first committee meeting of the year, which was full of hearty discussion & fellowship, and bringing back past VSC members back into active vocational service. Secondly, telling our story better - we're refreshing the VSC webpage, and I've been digging through the club's 60 Years of Service history book to rediscover landmark VSC projects that RC Singapore ran decades ago, and I want today's members to feel like they're continuing a rich legacy, not starting from scratch. Thirdly, and most importantly to me, have fun! More fellowship & more banter, only when members are closer with one another, are we able to serve better.

Who is Ting Yong?

Weird question! haha If I had to answer: someone who likes systems, service, and his dog (Tau Huay will tell you the order is reversed)

Can you introduce us to your family?

Sure, I come from a normal family, nothing interesting there... but I need to mention the newest & furriest member of my family - Tau Huay, my white Pomeranian. He just turned 1 year old this month, is looking forward to the upcoming RCS Pets' Day, and has strong opinions when I spend too much time doing Rotary work which occasionally eats into his playtime.

How do you recharge yourself?

Movement. I either run, weight lift, or cycle, and I am currently training for Hyrox in November. When the mind is overwhelmed, usually it means my body is underwhelmed. Physical activities are an effective method to clear my mind and headspace, or through walks with Tau Huay, who insists on them every day.

Something we don't know about you?

I am 10kg heavier since joining Rotary. I have since identified the culprit to be the weekly buffets and the many Rotary dinners we attend. I must have mistaken Service Above Self as referring to Dinner Service haha.

Advice for members who aspire to win the award?

Don't aim for the award, aim to contribute. That makes the journey feel less like a duty or contest, and more like purpose. Serve across more than one Avenue of Service, and rotate across the different committees, because that's where you discover different parts of Rotary, and of yourself. Find projects that connect to either your vocation or your heart. Lastly, just enjoy yourself & have a good time! Thank you PP James for paving the way, and being a good role model in this (and for bringing me into Rotary in the first place!)

UP CLOSE & PERSONAL

The Quiet Force: Linda Lim's Journey of Purposeful Service

By Rtn Anson Dichaves

She's the woman behind the scenes making things happen for the Rotary Club of Singapore. As she reflects on a well-deserved Outstanding Service Award, Linda Lim opens up to Crossroads for the first time in a hard-to-get interview.

How do you feel about winning the award?

It came as a complete surprise — I never expected to receive this award. I'm truly grateful to everyone who supported, encouraged, and believed in me throughout this journey. Thank you to everyone who made this possible.

What are you focusing on this year?

This year, I'm focusing on maintaining a peaceful and balanced life while continuing to grow personally and professionally.

Who is Linda Lim?

The one some think only works on Wednesdays — because that's meeting day!

Who is Linda at work? What are you most proud of?

Always looking busy, but most proud when everything falls into place.

Can you introduce us to your family?

Family isn't just about blood; it's about the people who care for, support, and stand by one another.

How do you recharge yourself?

I'm always looking for a recharge, but somehow the battery is never fully charged!

Something we don't know about you?

The non-Wednesday me — because there's more to me than just meeting days.

What's your message for readers?

Life is a journey. Stay humble, keep learning, be true to yourself, and give from the heart without expecting anything in return.

4TH WEEKLY MEETING

Christina Tin on Jobs and Skills in the Age of AI: What the Singapore Workforce Must Adopt to Keep Up

By Rtn Anson Dichaves

This week, the Rotary Club of Singapore welcomed Christina Tin, Managing Director of CTES Consulting. Drawing on 21 years running CTES Consulting — and more than 20,000 candidates, 10,000 students, and 200 corporate clients along the way — Christina placed today's anxieties in context. She has lived through four technological revolutions: the manual era, the computer era, the internet era, and now AI. Each one displaced certain jobs, demanded new learning, and stirred the same worry: will my skills still matter?

Christina traced how the value of human work has kept moving upward, from physical strength, to knowledge, to efficient information processing, and now to something higher still: judgment. As AI makes knowledge abundant, she argued, good judgment becomes the scarcer, more valuable asset. AI can generate ideas. People still decide which ones are worth pursuing.

If AI is redesigning work, Christina argued, organisations must redesign jobs — rewarding learning, adaptability, and collaboration alongside efficiency. Recruiters become talent advisors, teachers become learning coaches, managers become mentors. And the shift extends to how talent is even assessed: CVs are giving way to portfolios, as she put it, "Show me what you have created. Show me the problems you have solved."

Christina closed by tying her message to Rotary's Four-Way Test — truth, fairness, goodwill, and benefit to all concerned — arguing that as technology accelerates, our values shouldn't. She borrowed a line from PP Rajkumar's installation speech to frame what she hopes the AI era builds toward: let us be the reason a senior feels remembered, and a youth feels hopeful.

In an evening framed around artificial intelligence, it was a distinctly human note to end on, a reminder that as machines get smarter, wisdom, ethics, and judgment remain ours to bring.

PEOPLE OF ACTION: LAST WEEK'S HIGHLIGHTS

RC Makati Installation 17-19 July 2026

By VJ Africa

This past week I had the privilege of joining Rotary Club of Makati for their 61st Induction, and it reminded me why I love this #Rotary journey.

- Thursday: Welcome Dinner for Sister and Brother Clubs at the RC Makati Clubhouse, a highlight was the renewal of our sister club relationship, complete with a surprise duet with PP Mark! (Rotary talent knows no bounds)
- Friday: The 61st Induction Ball at The Peninsula Manila, seated alongside our friends from RC Kota Kinabalu, celebrating new leadership and new beginnings. The Hamilton-inspired extravaganza blew us away! President Chris did not throw away his shot!
- Saturday: A site visit to the RC Makati AI Academy, right there in the clubhouse, alongside RC Greater KL, seeing firsthand how technology and service intersect for real community impact.

My takeaways...

I am so blessed to be part of a club as well connected as Rotary Club of Singapore, with sister and friendship clubs spanning the region and beyond. The relationships keep growing!

I am so privileged to serve as ISC Chair this year, where my primary goal is to bridge and build relationships across our Rotary family in Asia and beyond.

And I am endlessly inspired watching how other clubs create lasting impact, whether through an AI Academy empowering young minds or the simple act of showing up for each other across borders.

To RC Makati, congratulations again to President Christopher (Chris) Ferareza and his board! Thank you for your warmth and hospitality (special call out to PP Keith Harrison, COS Ron and his Team). Here's to more connection, more collaboration, and more lasting impact together.

We Connect. We Collaborate. We Create Impact.

Zero Waste Recycling Hub Visit

17 July 2026

By Rtn Shaun Roache

The Environment & Sustainability Group visited the Zero Waste recycling hub in Queenstown on July 17, a project sponsored by RC Marina City. We learned how the facility encourages households to sort their waste and use “smart bins,” helping to significantly improve recycling rates, conserve resources and extend the life of Singapore’s rapidly filling landfills.

The E&S Group is exploring how our club can contribute to this effort. Reach out to Rtn Shaun if you’d like to join us!

PEOPLE OF ACTION: LAST WEEK'S HIGHLIGHTS

Community in Action: Food from the Heart Distribution

18 July 2026

By Rtn Jeremy Anthony

What a heart-warming morning it was yesterday! Our Rotary Club, together with our fantastic Interact Club members, came together to distribute Food from the Heart care packages to seniors and residents in need.

Rows and rows of care packages were prepared and lined up ahead of time, each one packed with daily essentials for our beneficiaries — a quiet reminder of just how much care and coordination goes in before the doorstep visits even begin.

A special thank you to the people who made it all happen — Jane's husband Erwin, who showed up and lent a hand throughout the morning; Shaun's daughter, who jumped right in with the team; Ganthi's father, whose quiet, steady support kept things running smoothly; and Kishin, our dedicated Rotarian, for his leadership on the ground. And of course, our incredible Interactors — the next generation of changemakers — who showed up early and gave their all.

Moments like these remind us that small acts — a warm greeting, a helping hand, a shared conversation — can mean the world to someone. This is what Service Above Self looks like. Until the next one!

PEOPLE OF ACTION: LAST WEEK'S HIGHLIGHTS

Rotary Fellowship Night: FIFA World Cup Final 2026

20 July 2026

By Rtn Thangaraj Muthu

At 2:30 in the morning, while most of Singapore slept, a small but spirited band of Rotarians made their way to the British Club — proof, if any were needed, that true fellowship knows no bedtime.

Rtn Rajkumar, Rtn Allard, Rtn Deepu, Rtn Kannan, Rtn Navaneeth and yours truly gathered to watch what turned out to be a memorable FIFA World Cup Final — 120 minutes of breathless football that kept us on the edge of our seats until the very last whistle.

The match ran its full dramatic course, and as the clock struck 5:30am, Spain had done it — lifting the World Cup trophy to cap a magnificent tournament. The cheer that went around the table at that moment was, without doubt, one of the warmest pieces of fellowship we have shared this Rotary year.

What made the night truly special was not just the football. It was the sight of six Rotarians — each with busy lives and full schedules — choosing to show up, at an ungodly hour, simply to be together. We were nourished with a hearty breakfast as the sun began to rise, and dispersed into the early morning with full hearts and tired but happy eyes.

It was a small gathering. But it was a perfect one.
Come for the match. Stay for the fellowship.

Rotary Club of Singapore Donation to Care Corner 20 July 2026

By Rtn Dr. Rupesh Agrawal

Rotary
Club of Singapore

TOGETHER FOR BETTER MOBILITY
and Brighter Lives

A DONATION OF
REHABILITATION INSTRUMENTS
to support recovery,
independence and community
well-being.

CareCorner
COMMUNITY SERVICES
FEELING CARE. BUILDING COMMUNITY.
www.carecorner.org.sg

The Rotary Club of Singapore is proud to donate these rehabilitation instruments to **CareCorner** in support of their mission to empower individuals and build stronger communities.

These instruments are valued at approximately **20,000 SGD**.

REHABILITATION INSTRUMENTS DONATED

Easy Walk (MA3)

Lower limb exercise machine
Promotes blood circulation and strengthens leg muscles with automatic forward and backward pedal movement.

Power Assist Hand (UFO)

Hand rehabilitation device
Assists in opening and closing the hand to improve finger mobility and support rehabilitation therapy.

Power Assist Leg (Relegs)

Leg rehabilitation device
Supports leg movement and joint mobility to aid recovery and improve daily functioning.

Power Assist Hand (PAH - Gloves)

Hand rehabilitation glove system
Provides assisted hand opening and closing movements to support grip, dexterity and daily activities.

MAKING A MEANINGFUL IMPACT TOGETHER

ENHANCES REHABILITATION
Supports physical recovery and improves mobility for better independence.

BUILDS CONFIDENCE
Empowers individuals to regain confidence and participate in daily life.

STRENGTHENS COMMUNITY
Creates opportunities for inclusion, dignity and a more caring community.

SUPPORTS SUSTAINABILITY
Enables long-term rehabilitation support and better quality of life.

Thank You, CareCorner!

On behalf of the Rotary Club of Singapore, thank you, CareCorner, for your dedication and for creating opportunities that transform lives.

Learn more about CareCorner and their impactful work: www.carecorner.org.sg

The Rotary Club of Singapore expresses its sincere appreciation to **Dr Rupesh Agrawal** for spearheading this initiative through his vision, vocation and network, making this donation possible and creating a meaningful difference.

Service Above Self | Connecting Vocation to Service | Together, We Make a Difference

Rehabilitation Instrument worth \$20,000 donated by Dr. Rupesh Agrawal in the name of Rotary Club of Singapore.

20 July 2026

Letter of Appreciation – Rotary Club of Singapore

On behalf of Care Corner Seniors Services Singapore, we would like to express our heartfelt gratitude to the Rotary Club of Singapore for the donation of the following rehabilitation devices on **14th July 2026**:

1. Power Assist Legs (Relegs)
2. Easy Walk (MA3)
3. Power Assist Hand (UFO)
4. Power Assist PAL100, control box

Your thoughtful contribution will greatly benefit our seniors by supporting their rehabilitation, mobility, and overall well-being. Through these devices, our seniors will have greater opportunities to enhance their independence and quality of life.

We are deeply appreciative of your generosity and commitment to serving the community. Your support not only provides valuable resources but also sends a meaningful message to our seniors that they are valued, remembered, and cared for. Acts of kindness such as yours help foster a stronger sense of belonging and bring hope and encouragement to those we serve.

Your partnership enables us to continue delivering quality care and meaningful support to seniors and their families. We are truly grateful for your trust and confidence in our work.

Thank you once again for your generous contribution and for partnering with us to make a positive difference in the lives of our seniors. We look forward to future opportunities to collaborate in building a more caring, inclusive, and compassionate community.

Yours sincerely,

Mary Wee

OUR GUIDING PRINCIPLES

THE FOUR-WAY TEST

Of the things we think, say or do:

First: Is it the **TRUTH**?

Second: Is it **FAIR** to all concerned?

Third: Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?

Fourth: Will it be **BENEFICIAL** to all concerned?

A GUIDE TO DAILY LIVING

Before doing the things we want to do, consider first the precept of the guide.

First: Have I spent some time in self examination?

Second: Have I spent quality time with my family?

Third: Have I given my best to my work?

Fourth: Have I given some time to someone near and far?

- The first question prompts us to evaluate ourselves and our ability to serve.
- The second reinforces our commitment to the Family, our intimate community of life and love.
- The third question requests us to commit ourselves to work excellence and the practice of high ethical standards.
- The fourth question reminds us of our duty to Lend a Hand, rendering compassionate service and working for world peace.
