

A message from Stuart

We need a government that has a plan for Queensland.

After five years of Labor, our roads are more congested, education standards are falling and hospital waiting lists keep going up. Queensland needs a change. Only Deb Frecklington and the LNP have a practical plan for Queensland to:

- ✓ Rebuild Queensland's economy
- ✓ Build new and better roads
- ✓ Get waiting lists under control and our hospitals working

- ✓ Get back to basics in schools
- ✓ Build dams and secure Queensland's water supply

I'm proud to be part of Deb Frecklington's LNP team.

With your support, we'll get Queensland working again.

LNP Candidate for Caloundra

Queensland used to lead the nation's economy. Now we have:

- ✗ Worst unemployment rate in the nation
- ✗ Highest number of long-term unemployed people
- ✗ More bankruptcies than any other state
- ✗ Worst state government for planning and managing growth
- ✗ Lowest small business confidence in over a decade

Since elected, the Palaszczuk Labor Government has hit Queenslanders with nine new taxes. It's not good enough.

Tell them with your vote. Change the government.
