

Club Meeting 14 November

This week we saw our AGM and next year's new Board Members formally elected.

Our Board for 2020-21 is as follows:-

President: Greg Cribbes, **President Elect:** Maurie Walters, **Immediate Past President:** Peter Sutherland, **Vice President:** Tony Wells, **Secretary:** Gavan Schwartz, **Treasurer:** Geoff Haddy, **Club Service:** Adam Hillary, **Foundation:** Rob Head, **Vocational:** Peter Downton, **Youth:** Jane Pennington, **Fund Raising:** Nino Sofra, **Community:** Tony Hart, **International:** Rowan McClean, **Membership:** Jim Studebaker.

This structure becomes effective after Club Changeover at the end of June 2020. Congratulations to newly elected Members and thanks to those with ongoing roles.

The previous year's audited Financial Statements for the year ended 30 June 2019 were tabled and accepted as being a true account of Club Activities for 2018-19. We thank Adam Hillary and Geoff Haddy for their tireless efforts in maintaining and reporting the Club's financial position and Baumgartners Accountants in Kew for providing the audit service.

In response to The Financials we thank Members for their questions concerning Fund Raising activity and Expenditure which will be the subject for ongoing Board review. The Financial Report forms an invaluable planning tool for the current and future Boards.

John Rennie, our Protection Officer reminded us of our Child Protection Policy and Members are encouraged to keep themselves familiar with these policies and comply with the request to maintain a current Working With Children Check.

Secretary Gavan also reminded us of our **Club Mutual Respect Policy** which supports **Rotary's 4-Way Test** that requires us to show respect and understanding of each other, especially at times when we are working through difficult decisions and expressing differences of opinion.

Our Guest, Senior Sergeant Ashley Wigg has joined the **Victoria Police Leadership Mentoring Program** and **Russell Cooper** has volunteered to be his Mentor in the program. Congratulations Russell and Ash and we look forward to seeing more of Ash in the future and understanding how the Program is supporting him and Victoria Police.

Drought Relief Fund (DRF) – Update

St Arnaud

Rainfall has been below average this year – January to the end of October, St Arnaud has received 350mm versus an average of 461mm. It is not all about averages when water storages are already starting the year from a significantly depleted position. However this year's average confirms we are in this for the long haul. October was particularly poor with a mere 5mm sprinkling versus an average for October of 45mm.

December is the harvest period which means farmers have reached their credit limits while they await sales of their grain – such income is due to arrive in mid-January. While frost has bitten into the yield, sales are still expected to be quite good but in the interim families are suffering with a November – January cash flow problem – nasty for young families at Christmas time. Hence the importance of our Voucher Program.

Action wise, in November we have listed 52 families to whom \$7,500 is being distributed this week. In December there will be a further distribution tranche of another \$8,000. We are also sending the ladies cosmetics, the Sukin range, up as Christmas Gift packs. Last Tuesday the Cubby House that the Sally and Peter Sutherland donated was finished and installed at the St Arnaud Childcare Centre.

February 1st is set for the Harvest Festival that will entail our participation again.

By the end of this year, we will have distributed 84% of our Financial Support Vouchers. The Queensland University review report concluded that our vouchers circulate the St Arnaud economy between 5 to 7 times. Therefore, our work to date extrapolates to over \$160,000 injected into the local St Arnaud economy by our vouchers alone.

As discussed on Thursday evening at the AGM, the DRF fulfils the nature of three of the questions raised on the evening. This project was initiated by one of our own members and our Board enthusiastically and rapidly moved to 100% endorse and support our DRF. Secondly, our funding of \$105k has been 90% self-funded by the DRF. RCNB granted the balance \$10k. Lastly, the balance of our funds is clearly targeted for this long term drought project and will be spent strategically.

As we approach 2020, the DRF Committee has turned its strategic focus to other drought impacted communities. Subsequently we have commenced planning for both more funding and new communities to assist.

Clifford Park - Aussies teaching archery to Mongolians – January 2018

Editors note:- It was the Mongols who invented the Composite Bow that Genghis Khan adapted as a weapon of war. Warriors could use the bow effectively while on horseback which was a major contributing factor to the Mongols conquering large tracks of the then known world.

The Mongol bow is rated as effective as the English long bow with a firing distance of 500 yards and accurate to 200 yards with armour piercing capability.

Geoff's Health Tip

Why Almonds Should be on Your Shopping List

Lightly roasted almonds are one of those nutrient-dense foods that can be hard to stop munching once you start. I love them, but what about you? Australia has been producing almonds commercially since 1940. In 2018, Australia produced 80,000 tons (7% of the world's production, whilst California produced 80%). Perhaps you might be surprised to learn that Australia exports 55,000 tons to China.

Almonds have some special benefits:

- * Eating almonds can significantly boost your levels of Vitamin E. Vitamin E is a powerful antioxidant that protects your cells against damage by oxidation.
- * Almonds improve the blood lipid (fat) balance by adding more poly and monounsaturated fats.
- * A research article printed in the *American Society for Nutrition 2019* concluded that "almond consumption may reduce the risk of cardiovascular disease by improving blood lipids and by decreasing body weight and apolipoprotein B".
- * Almonds are a good source of magnesium. There is some evidence to show that magnesium keeps sodium levels under control. Tests on people with type 2 diabetes show that around one third of people with this disease have low levels of magnesium.
- * Almonds help manage weight. Numerous studies on almonds and other nuts have demonstrated their ability to keep people feeling full.
- * People think of beef with roughly 14% protein as the major source of their protein requirements, however almonds have 18% protein, 25% more than beef.

Maybe you think almonds are too expensive at \$13.33 per kg in Woolworths, however I have noted that beef mince is \$14 per kilo!

Boroondara Community Outreach

Christmas Hamper Project

Dear Members,

Last year Diane Goetze asked us to support the socially isolated at Christmas time by helping provide a Christmas gift of Toiletries and Food. This Christmas Hamper is a way of showing that people are thinking of them at this difficult time. The response last year was great and we wish to repeat it.

Items requested are Toiletries, non-perishable food and failing this, cash donations are always welcome!

Last year members asked local pharmacies and businesses for samples which was well received.

The Christmas Hamper Project aims to provide 497 hampers to the vulnerable in our community.

Each week from later in October, Hugo will have a box or basket at Club Meetings to collect the toiletry items for the men & women in Kew rooming houses.

Thanks in advance for your help.
