

Club Meeting 21 November

Mark Hunter again expanded our knowledge of wine from his experience in running the successful Sanguine Estate Winery at Heathcote.

His winery did so well at the 2019 Heathcote Wine Show that The Halliday Wine Companion 2020 gives it a red 5-star rating, thereby placing Sanguine Estate in the top 8% of the 2800 wineries reviewed in Halliday.

Sanguine Estate wines also regularly achieve 4 ½ to 5 star ratings in Winestate magazine (one of Australia's notable wine magazines) and their shiraz wines consistently fall in the top 4% of wines judged in the Winestate Greatest Syrah & Shiraz Challenge at least equalling or outperforming some of the world's most iconic brands.

2012 Sanguine Estate Inception Shiraz equalled 2012 Penfold's Grange for TOP 10 Best Shiraz's in the World!

Over recent years Mark has been awarded numerous medals including 5 Blue Gold medals at the Sydney International Wine Show and over 50 Gold and Silver medals at various Australian wine shows such as Boutique Wine Awards, Winewise Small Vigneron awards, le Concours des Vin (Victorian Wine Show), Melbourne Wine Show, National Cool Climate Wine Show and the National Wine Show.

As our guest speaker, Mark shared several wines with us while explaining how the wines develop in the soils found in parts of the Heathcote area. Mark answered a multitude of questions from our club members. It was evident that a considerable number of our members love red wine.

A very enjoyable night was had by all.

The discussion with Mark Hunter included corks versus screw caps.

As a result of the discussion Hugo has sent through the following information on the history of the screwcap in Australia.

A brief history of the still wine screw cap in Australia.

Now almost 50 years ago, that old (no longer) company – ACI (Australian Consolidated Industries) could see the need for a replacement of still wine bottles closed by cork due to the cork's deteriorating quality and increasing cost and the increasing wastage due to "Corkage". ACI Research wanted to make "roll on" bottle caps as for sauce bottles etc but with a deep skirt for labelling as was available in France. The various Aluminium alloys available in Australia for deep drawing were all unsuccessful although satisfactory for aluminium drink cans.

Thus, ACI Research and Alcoa Rolled Products (with Hugo in the middle) worked on this issue in 1972. The Rolled Products Laboratory at Pt Henry Works (Geelong) applied some of their own unique analysis methods to determine the sample French caps were made with a specialty German Aluminium rolling alloy. Alcoa made a small furnace load of a special composition based upon a similar registered USA composition and this was rolled down to final thickness in mid-range strength.

ACI (Spotswood) successfully made these deep Stellvin caps in three drawing stages of reducing diameter and increasing depth (to about 40 mm) and commenced limited production for production trials. The thread on the opening of the filled glass bottle is the formwork for rolling the thread into the plain Stellvin cap when sealing the bottle. The multiple layer liner placed in the end of the cap contains a special EVA plastic which seals the bottle but breathes without allowing oxygen in.

Although successful, the concept was not commercial due to consumer resistance and the cork quality had not deteriorated as fast as projected.

By the late 80's, wine wastage due to "Corkage" had increased to the extent that these Stellvin closures became acceptable and the conversion from cork became a reality.

With the closure of Alcoa's and Comalco's aluminium rolling mills by 2010, I suspect these closures are now imported.

Members are requested to bring along an unwrapped children's toy up to the value of \$15- to our dinner on meeting December 5. The toys will be donated to Camcare for inclusion in their Christmas packages for the less fortunate in the community.

The Rotary Club of North Balwyn (RCNB), Vic, recently experienced a rare event with the induction of a third-generation member. Andrew Sutherland, 32, is the son of the current club president, Peter Sutherland, who's the son of Ken Sutherland, who, at age 92, is still an active member of the Rotary Club of Kogarah, NSW.

President's Report

Last weekend those attending The Fellowship Weekend at Port Lonsdale were treated to great dining, good weather, great golf and even better company thanks to the perfect organisation of Greg and Jenny Cribbes. Thanks John Magor for organising the Golf Bookings at Queenscliff and Port Arlington and the presentation of awards. The perpetual "Hacker Trophy" was won by the Ambrose Foursome of Rowan McClean, Jenny Cribbes, Marcel Muntwyler, and Sally Sutherland.

On Saturday a Box Hill Bunnings BBQ organised by Bill Oakley and shared with Clifford Park Scouts grossed over \$2,000. We thank the Scouts for helping out in our time of need which turned out beneficial for both our organisations.

Our Mens Shed has been contacted by the Real Estate Institute of Victoria REIV in Camberwell as to whether we would be interested in some surplus office and IT items identified in a recent stock take. As a consequence we have taken stationery items to St Bridget's Primary School and Computer Equipment to DIK's Computers for Community Project and there is more work to be done.

Meetings held this week include a Board Meeting, Youth Meeting and Drought Relief Committee Meeting. Please contact these Committee Heads if you would like more information.

Thursday morning saw Foundation Chair Findley Cornell organise a table of ten at the annual Paul Harris Breakfast. It was the 27th annual Paul Harris breakfast hosted by Central Melbourne Rotary. Dr Andrew Browning left everyone in awe of his great selfless work in Africa.

Filming Wolves of the Sea "The Dragons of Galapagos"

Over the years David & Liz have produced and shot material for a diverse range of Natural History documentaries as well as a docu-drama filmed in the Antarctic and a cinema-verite series called "Antarctic Man". They have worked extensively in Australia, Antarctica, the sub-Antarctic, Papua New Guinea and also South America, Alaska, and Canada. David specializes in filming the detailed behavior of animals, both above and underwater, using specialized & innovative camera techniques with the latest and best equipment available at the time.

They are the only filmmakers to win two WWF Golden Pandas from "Wildscreen" (the "Green Oscars") for "Mysteries of the Ocean Wanderers" and "The Dragons of Galapagos" as well as a Special Panda for "The Nature of Australia" series and another for Cinematography for "Wolves of the Sea". Their docu-drama "Douglas Mawson – The Survivor" won the Grand Prix at the Melbourne International Film Festival.

This would be great opportunity to invite a guest or partner to experience these widely awarded nature film makers.

Have a great week in Rotary

The Rotary Club Board has confirmed our last meeting at KGC for 2019 will be Thursday 19th December (Christmas meeting).

We plan to resume Club meetings at KGC on Thursday January 16th (with an informal bbq meal on this date).

Regular dinner meetings would be scheduled from Thursday January 23rd.

Don Taylor is also arranging our traditional brunch at Warren Glen Nursery on January 12th and I believe he will/has contacted you independently about this.

Great Rotary Fellowship on the beautiful Bellarine!!

A very sincere thank you from myself and Jen to everybody who joined us for a wonderful weekend on 15/16/17 November. The consensus seems that everybody thoroughly enjoyed the hospitality, activities and sightseeing as arranged and from the glowing reports that the Fellowship together “was great”. Very pleasing. 😊

A brief re-cap of what took place:-

Friday at the Pt. Lonsdale Guest House for a very lengthy afternoon of Happy Hour++, followed by a delicious ‘home style’ Roast and Pavlova/Berry dessert all presented by our Hosts, the inimitable Sue and the illustrious Peter.

Saturday saw early morning brekky then tours of the Maritime Museum, Queenscliff Fort and general enjoyment of the Pt. Lonsdale and Queenscliff heritage place. The Golfers headed for Swan Bay to chase the little white ball from hole to hole... the surprising results were Greg Cribbes - 32 points; Jenny Cribbes - 31 points; then on 30 points Rowan McClean and Peter Elliott on 30 points. That evening, a walk to Pasquini’s and Ric/team served up a delicious 3 course meal along with more refreshments. Back at PLGH, Rowan, Maurie and Barry stirred up the night with their guitars and our “singing” – what a wonderful night.

Sunday golf meant an early brekky then off to Portarlington. A very pleasant golf course where the event was Ambrose for the fifth major – The **RMPG Hackers Cup**. The results: Rowan McClean, Jenny Cribbes and Sally Sutherland (both first time winners....) and Marcel Muntwyler on a net 62.25.

Next Greg Cribbes, Greg Ross and Imre Lele on a net 62.5 (we ‘was robbed’ by 0.25 of a stroke)

Third John Magor, Robyn Elliott, Bev Sofra and Pete Sutherland on net 65.

Sunday was also a time to ride to Drysdale for Geoff Haddy whilst others explored the Point Lonsdale Lighthouse which was also declared amazing. Thereafter, some wandering of the Bellarine before heading to Basils Farm for another sumptuous luncheon with ample ‘refreshments’ whilst overlooking the unbeatable panorama of Swan Bay. Just a great way in perfect weather to wrap up a weekend on the Bellarine.

Sunday evening for the ‘stayers’ was a very casual pizza offering back at the PLGH and a relaxing way to finish a very memorable Fellowship Weekend. We look forward to your support in 2020-21 and seeing you at Kris and Maurie’s Fellowship in 12 months time. Cheers and thankyou

Drought Relief Fund (DRF) – Update

St Arnaud

Rainfall has been below average this year – January to the end of October, St Arnaud has received 350mm versus an average of 461mm. It is not all about averages when water storages are already starting the year from a significantly depleted position. However this year's average confirms we are in this for the long haul. October was particularly poor with a mere 5mm sprinkling versus an average for October of 45mm.

December is the harvest period which means farmers have reached their credit limits while they await sales of their grain – such income is due to arrive in mid-January. While frost has bitten into the yield, sales are still expected to be quite good but in the interim families are suffering with a November – January cash flow problem – nasty for young families at Christmas time. Hence the importance of our Voucher Program.

Action wise, in November we have listed 52 families to whom \$7,500 is being distributed this week. In December there will be a further distribution tranche of another \$8,000. We are also sending the ladies cosmetics, the Sukin range, up as Christmas Gift packs. Last Tuesday the Cubby House that the Sally and Peter Sutherland donated was finished and installed at the St Arnaud Childcare Centre.

February 1st is set for the Harvest Festival that will entail our participation again.

By the end of this year, we will have distributed 84% of our Financial Support Vouchers. The Queensland University review report concluded that our vouchers circulate the St Arnaud economy between 5 to 7 times. Therefore, our work to date extrapolates to over \$160,000 injected into the local St Arnaud economy by our vouchers alone.

As discussed on Thursday evening at the AGM, the DRF fulfils the nature of three of the questions raised on the evening. This project was initiated by one of our own members and our Board enthusiastically and rapidly moved to 100% endorse and support our DRF. Secondly, our funding of \$105k has been 90% self-funded by the DRF. RCNB granted the balance \$10k. Lastly, the balance of our funds is clearly targeted for this long term drought project and will be spent strategically.

As we approach 2020, the DRF Committee has turned its strategic focus to other drought impacted communities. Subsequently we have commenced planning for both more funding and new communities to assist.

MONGOLIAN CULTURAL IMMERSION TRIP

You are invited to come and meet the 4 girls, 3 boys and 2 chaperones comprising the visiting group from Mongolia.

A Club Day has been organised to give you all the opportunity to meet, chat to and enjoy the company of our visitors.

So please put the date in your diary now!! - Sunday 12 January 2020.

At Clifford Park Scout Activity Centre, 7 Clifford Drive, Wonga Park.

Come from 10.30am onwards, stay for lunch and join in the activities until 4.00pm.

Contact Jane or Estelle for more information.

Clifford Park - Aussies teaching archery to Mongolians – January 2018

Editors note:- It was the Mongols who invented the Composite Bow that Genghis Khan adapted as a weapon of war. Warriors could use the bow effectively while on horseback which was a major contributing factor to the Mongols conquering large tracks of the then known world.

The Mongol bow is rated as effective as the English long bow with a firing distance of 500 yards and accurate to 200 yards with armour piercing capability.

Geoff's Health Tip Probiotics and Prebiotics

When my granddaughter was packing her suitcase and about to depart for overseas, she said she was stocking up on probiotic capsules. I was quite surprised at this revelation and wondered whether probiotics were now mainstream among the young trend setters? I dare say that most people have never heard of probiotics or even prebiotics for that matter, and fewer actually knew what they were except to try and vaguely associate the name with a type of antibiotic drug. Actually, instead of killing bacteria, probiotics and prebiotics promote friendly bacteria.

With the rising popularity of gut health and nutrition, it is now important to understand the importance of probiotics and prebiotics and the difference between the two.

About 20 years ago the title '**probiotics**' was given to live bacteria that selectively increase the huge variety of bacteria found naturally in the gut. Most are from the genera Lactobacillus or Bifidobacterium or Yeast. These bacteria are found in fermented foods such as **yoghurt, kefir, sauerkraut and sourdough bread**. They can also be extracted and presented in tablet or capsule form.

Why do you need them? Probiotics support digestive health and immune function and play a part in the newly found gut-brain connection. There is also a growing amount of evidence that demonstrates the need to have a diverse range of bacteria in our gut to maximise our immune system.

'Prebiotics' are foods that feed the probiotic bacteria. These are essentially fibre that the human body cannot digest, also called 'resistant fibre'.

Resistant fibre or prebiotics are found in fibre rich foods such as wheat, rye, onion and garlic, Jerusalem artichokes, green bananas, oats and cooked and cooled rice and potatoes. These food components help promote beneficial bacteria by providing food and creating an environment where the good, friendly bacteria can flourish.

Prebiotics and probiotics both support the body in building and maintaining a healthy colony of bacteria and other microorganisms which support the gut and aid digestion, and the immune system.

Christmas Hamper Project

Dear Members,

Last year Diane Goetze asked us to support the socially isolated at Christmas time by helping provide a Christmas gift of Toiletries and Food. This Christmas Hamper is a way of showing that people are thinking of them at this difficult time. The response last year was great and we wish to repeat it.

Items requested are Toiletries, non-perishable food and failing this, cash donations are always welcome!

Last year members asked local pharmacies and businesses for samples which was well received.

The Christmas Hamper Project aims to provide 497 hampers to the vulnerable in our community.

Each week from later in October, Hugo will have a box or basket at Club Meetings to collect the toiletry items for the men & women in Kew rooming houses.

Thanks in advance for your help.

Dear Sponsors, RCNB Members and friends

ROTARY CLUB OF NORTH BALWYN CHARITY GOLF DAY

Friday February 21st, 2020

As we head into Summer again, the Rotary Club of North Balwyn is well advanced in organising the highly popular and successful Charity Golf Day for Friday February 21st, 2020 – just over 3 months away!!

In 2020, the proceeds for this event will once again fund our PhD student [Jacqueline Kuruppuas](#) as she completes her 3rd year research into Mental Health at Melbourne University. Jacqueline's greatest passion is improving the children's health and well-being. The Scholarship is provided through [Australian Rotary Health](#) who continues to align its funding and support to this vital community need.

We are seeking your support in being a **Sponsor, Player, or Contributor** in this year's North Balwyn Rotary Club's Charity Golf Day at Kew Golf Club. Our target fundraising is \$10,000. Details of how to contribute are attached/below. We look forward to your involvement and support.

All Event Sponsors will be invited to provide Promotional Materials, Vouchers or Product for inclusion in an Australian Rotary Health gift bag for all players. Your sponsorship will be widely promoted through all 66 clubs in our Rotary District 9800 and in our local community.

**FROM
JANUARY WE
REQUIRE 2
PEOPLE EACH**

**AT A WEDDING PARTY
RECENTLY SOMEONE YELLED,
"ALL MARRIED PEOPLE PLEASE
STAND NEXT TO THE ONE
PERSON WHO HAS MADE YOUR
LIFE WORTH LIVING."
THE BARTENDER WAS ALMOST
CRUSHED TO DEATH...**

All men should
make *coffee* for
their woman.
It says it right in
the Bible...
