17th September 2020

Dear Members of the Rotary Club of North Baldwin,

On behalf of the Centre of Research Excellence in Ear and Hearing Health of Aboriginal and Torres Strait Islander Children (CRE_ICHEAR) I am writing to sincerely thank you for your generous donation of \$7500 worth of hearing testing equipment. This equipment will be distributed to a remote Indigenous community for use by the trained Indigenous Community Ear Health Facilitators based within that community.

The hearing testing equipment will provide the community with the means to evaluate new and follow up on existing ear health issues in its children. If left untreated ear disease can have a significant impact on a child's development and entire life trajectory. In conjunction with the valued work of our trained Indigenous Community Ear Health Facilitators this donation will make a significant contribution to the health and well-being of Indigenous children in a remote community.

We look forward to updating you on the installation, training and use of the hearing testing equipment.

Thank you once again for your generosity

Dr Joanne Howes
CRE_ICHEAR Research Program Manager
On behalf of the CRE_ICHEAR Leadership Group
