Introduction

The "Jerusalem Women Driving Health Together" initiative is a community-led program aiming to become a Rotary Global Grant.

- **Focus:** Training 30 young Jewish and Arab women from Jerusalem as medics, ambulance drivers, and phlebotomists.
- **Goals:** Women empowerment, job creation, healthcare accessibility, and intercommunity collaboration.

Addressing Key Challenges

1. Healthcare Workforce Shortages

- Critical shortage of medics, ambulance drivers, and phlebotomists in East Jerusalem.
- High turnover rates and slow emergency response times.
- Magen David Adom (MDA) approached Rozana to launch this training program.

2. Women's Empowerment & Job Creation

- Provides vocational skills and sustainable job opportunities.

3. Social Cohesion

- Integrated training sessions and 'other' language learning.
- Strengthens community ties between Jewish and Arab participants.

Implementation Plan

- **Recruitment:** Partner organizations select participants.
- **Training:** 6-month certified part-time course in emergency medical response and ambulance driving.
- 3-day phlebotomy course to boost employment prospects.
- **Language Support:** Hebrew and Arabic language classes to bridge communication gaps.
- **Job Placement:** Collaboration with MDA and other ambulance services to secure employment for graduates.

Project Timeline

- **Recruitment & Language Training:** 3 months
- **Certification Training:** 6 months (part-time)
- **Job Placement, Alumni Development & Reporting:** 3 months
