TURKISH STUDENT NURSE FUNDRAISING

Supporting our colleagues devastated by
the earthquakes that occurred in their
country in February 2023

Thank you for supporting our student nurses. Several nursing students lost their families and their homes. Several students live in tent cities, where there is no money to go to nursing school. A regular scholarship will assist them continue their education. We estimate that support of 150 euros per month for each student will help them to continue their lives and nursing education.

President Turkish Nurses Association
Azize ATLI ÖZBAŞ
