Rebuilding in two steps

First step - to give people a temporary shelter prior to cold season

Second step - complete reconstruction of the destroyed Moshchun

First step – Modular Houses

1. Temporary housing - about 300 of modular houses:

- Cost of one modular house with its installation, some appliances and furniture (fridge, conditioner, heater, table, bed, etc) – about \$ 12'500 USD

2. Basic principles:

- No complicated design, no innovative materials or sophisticated logistics
- Use of local materials
- “Ready to use” solutions
- Modular house is given free of charge for usage until the restoration of permanent housing

3. Current situation:

- First modular house already built, production in Kyiv region
- Production capacity: 150 houses per month

Second step – Full Rebuilding

1. Concept:

- in partnership with leading world-famous architects we make the territory of Moshchun symbol of the future

2. Basic principles:

- Design solutions
- Innovative materials
- Long-term and ergonomic solutions

Project Structure

Rotary clubs / Donors / Crypto-community / Events

1. FUNDRAISING through:

- Rotary grants / Donations
- sale of NFT / tickets / ...

2. Sponsor (NFT) levels

- Bronze: NFT album with songs of Ukrainian and World music stars.
- Silver: an exclusive online concert.
- Golden: tickets to a live mega-concert (like Live Aid) with the world stars
- Platinum: access to the party after concert with all-star artists

3. What do we spend MONEY on:

- Temporary housing production for Moshchun
 - Complete restoration of Moshchun
- ## 4. Residents of Moshchun get modern dwelling
