**HANWASH** is a collaborative national initiative to *provide thoughtfully managed and sustainable clean water and sanitation to all citizens of Haiti*, along with the associated health, community and economic benefits.

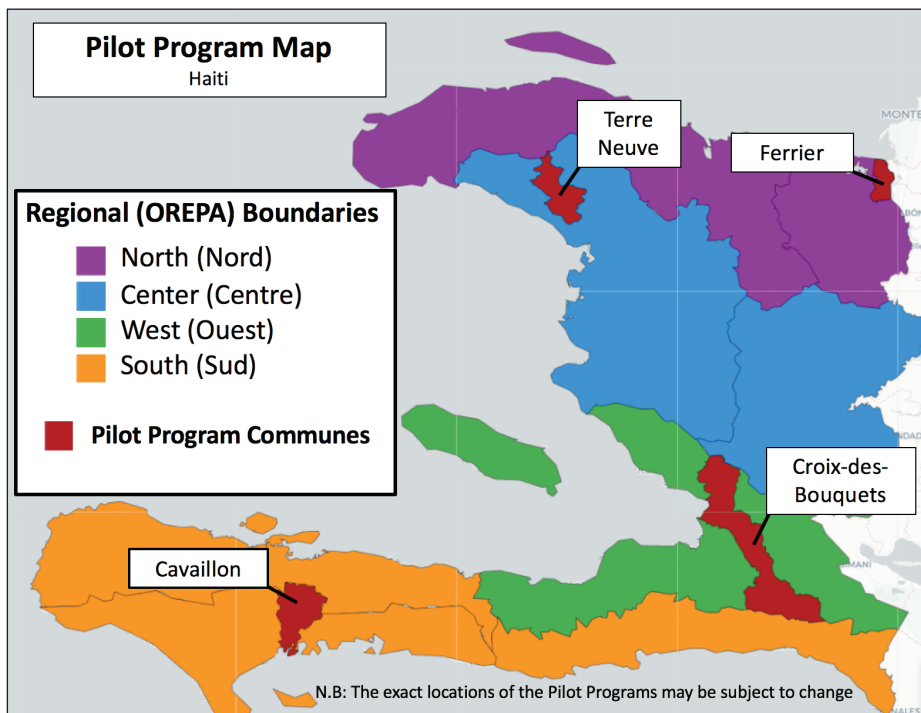

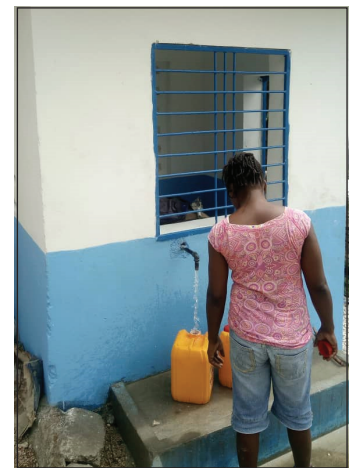

HALF of Haiti's water and sanitation infrastructure is not functioning. A survey of 1096 water kiosks and 2266 water fountains showed that more than half of existing water kiosks are out of service and only 58.4% of existing water fountains inventoried are functional. (DINEPA, 2013) Over 40% of wells are non-functioning. (Haiti Outreach 2004)

### OUR GOAL

The intention of HANWASH is simply to facilitate the creation of safely managed access to financially sustainable, potable water and sanitation to everyone in Haiti.

More specifically, by 2030, HANWASH would ensure availability and sustainable management of water and sanitation for all through:

- Universal and equitable access to safe and affordable drinking water
- Access to adequate and equitable sanitation and hygiene
- Long term commitment and engagement of local communities to support and strengthen improvements and management

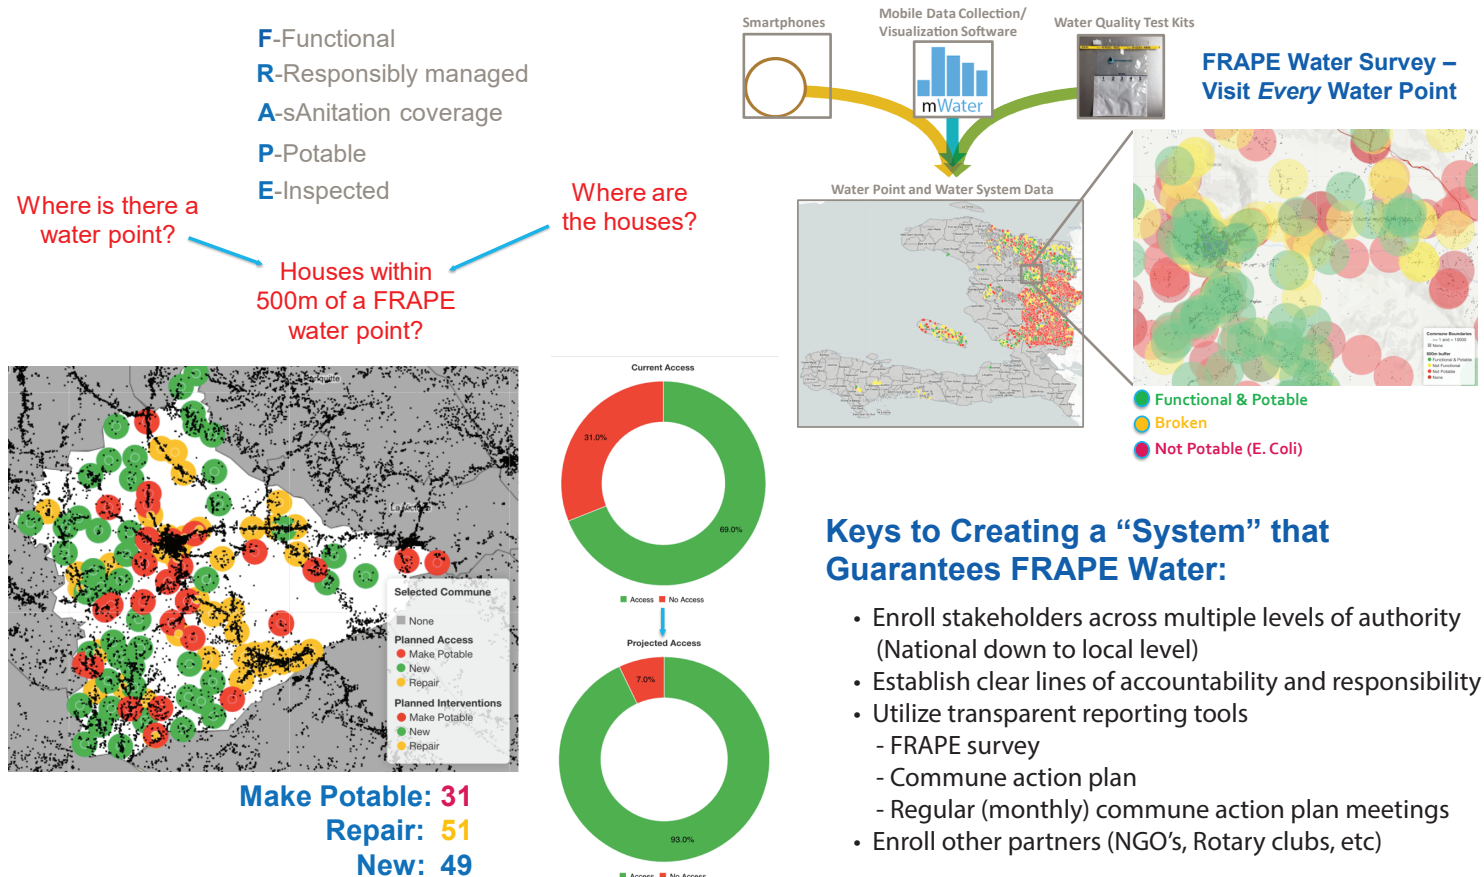

### THE INITIAL PROGRAM

HANWASH will focus on systematically increasing access to sustainably managed water, initially in four of Haiti's 145 communes, with the aim of expanding the program across the whole of Haiti once it is shown to be successful.

The four pilot projects are in the Communes of Cavaillon, Ferrier, Trou du Nord and Croix des Bouquets – representing one commune in each of the four OREPA regions, each supported by the Rotary club structure in the area.

## THE ACTION PLAN

Our intention is to create basic or safely managed access to potable water and sanitation to every household in Haiti.

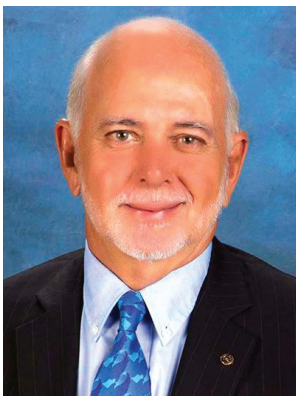

## Keys to Creating a “System” that Guarantees FRAPE Water:

- Enroll stakeholders across multiple levels of authority (National down to local level)
- Establish clear lines of accountability and responsibility
- Utilize transparent reporting tools
  - FRAPE survey
  - Commune action plan
  - Regular (monthly) commune action plan meetings
- Enroll other partners (NGO's, Rotary clubs, etc)

## WE NEED YOUR HELP!

This is a 12-year, multi-billion dollar endeavor to bring clean water to the entire country of Haiti and YOU can make a difference and have an impact in making that happen. Here are some ways you can get involved:

- Be a Rotary HANWASH District Champion to partner with us on Global Grants for the four pilot projects and the many that will follow
- Get your Rotary club or district involved by contributing District Designated Funds
- Volunteer your professional or technical skills for planning and implementation on the ground or as a HANWASH committee member
- Introduce HANWASH to possible partner corporations, other non-governmental organizations or foundations
- Direct fellow Rotarians or anyone you know who may be interested to the [www.HANWASH.org](http://www.HANWASH.org) website to donate or volunteer
- Coordinate your Haiti water project with HANWASH if you have an existing one in place or are planning one
- Sign up on our website to receive our newsletter and stay informed on this transformational project
- Look for our booth at the HAMBURG Rotary International Convention House of Friendship

## GET INVOLVED TODAY!

*“Our dream is to bring potable water and good sanitation to the entire country of Haiti. Water is essential for good living conditions and the people of Haiti deserve to have it. Rotary is proud to be an integral part of this venture to partner with the government and other agencies that have the expertise to create a transformational program for the country.”*
