

ROTARY DISTRICT 5280 2015-16 DISTRICT HUMANITARIAN TRIP PROJECT DESCRIPTION

Rotary Club of Panama Operation Smile

Visit a local hospital to see and experience the children prior to their operation. Observe the medical and Operation Smile personal gather necessary information. Time duration is estimated to be approximately one hour at the hospital.

Rotary Club of Panama Norte Project

The project involves the equipping an E-Learning Center in Veracruz community northwest of Panama City. The Center's primary purpose is to expose and teach local children and young people in the area computer technology skills with the long-term of improved employment opportunities. The community is providing the building and improvement, the Ministry of Education the training of instructors and Rotary the computer equipment and furniture. Estimated time duration is approximately four to five hours.

Also part of the visit is to deliver pack backs to children at the Center.

Rotary Club of Playa Coronado

The community has identified two schools where the bathroom facilities are inadequate and a potential health hazard. The project is to rehab the existing bathrooms, installing new elevated water tanks, new septic tanks, and hand washing stations and training to maintain the improvements. Estimated time duration is approximately four to five hours.

Rotary Club of El Dorado Panama

Community of Ciricito Arriba. The project is to upgrade and improve upon an existing antiquated water system. The community provides the labor, the Ministry of Health provides the necessary training to run and maintain the system and Rotary provides the equipment and supplies. Time duration is approximately four to five hours.

Community of La Bonga. This project involved the building of a new catchment in a valley next to a spring, adding a new bigger water storage tank, and the new necessary pumping equipment. The community provides the labor, the Ministry of Health provides the necessary training to run and maintain the system and Rotary provides the equipment and supplies. Time duration is approximately four to five hours.
