(No refunds, your donation is 50% tax deductible via Rotary Club of HMB Foundation.)

For more information about the Potomac, see: usspotomac.org

Additionally here are the Covid precautions the Potomac is taking for its cruises.

Due to recent changes in the Covid virus we must take the following actions:

* Every person who comes on board **MUST** present a CDC Vaccination Report. You and your guests must bring that little piece of paper you got when you were vaccinated or you will not be allowed on-board. If you have converted that CDC Vaccination Report onto your smart phone, we can use that to validate your vaccination.

* We will be using a no-touch thermometer to take your temperature at the gate. If you have a fever, you can't come on-board.

* Masks must be worn when in enclosed areas of the ship. You don't have to wear a mask when you are on the upper deck or bow, or when eating/drinking.
