

Tippy Taps

A light-hearted name for simple devices that significantly reduce the spread of deadly diseases. A group of concerned Guatemalan citizens “*Los Buenos Vecinos*” (*The Good Neighbors*) are improving the health of their communities by making and installing Tippy Taps - practical, affordable, sustainable handwash stations - and teaching WASH (water, sanitation, hygiene) protocols.

Studies show that *daily use of Tippy Taps combined with WASH training reduces influenza and diarrhea by 47%*. Diarrhea is the cause of most malnutrition and the highest cause of death in children under 10 yrs. *74% of Mayan children have chronic malnutrition*. COVID-19 makes handwashing more urgent than ever.

This Giving Tuesday, please join Rotary Clubs in Flathead Valley and across Montana to help Los Buenos Vecinos raise \$5,000 to supply lifesaving Tippy Taps, towels, soap, and WASH training for 750 school children in the coastal highlands of Guatemala.

BONUS MATCH!! An enthusiastic Rotarian has pledged to add \$2,500 when our tally hits \$3,000. *Let's do this!!*
