

The Free Reading Program is an on-line program comprised of over 3,500 interactive activities designed to supplement and reinforce fundamental reading skills for students in reading levels K-6. Originally a creation of the Rotary Club of Scarborough, its popularity has spread worldwide and, in recent years, the program has been highlighted at the Rotary International Convention. Several Rotary clubs in Canada and the US have chosen to sponsor the program on their club's website.

To find out more about the program you can visit the official website at <https://freereadingprogram.com>

To find out how your club can sponsor the program on your website you can also contact heather@freereadingprogram.com or hugh@freereadingprogram.org
