

In 2015, D5580 Completed the ground floor of the Meenakshipuram school near Rajapalayam at a cost of \$103,000. Now we are looking to raise \$22,000 so we can obtain a WCS Matching Grant to complete the school (total amount to complete = \$44,000). We are looking for District 5580 partners to complete our mission and welcome your financial assistance in so doing. The school will not be sanctioned to open until 6 more classrooms are completed for use as Biology, Physics, Chemistry and labs to go with these subjects.

If your club would be interested in partnering with the Fargo Moorhead, Dickinson and Wahpeton Clubs in this venture, please contact Keith Brokke (Rotarian.Keith@gmail.com). He is available to speak to your club about this project and the great relationship D5580 has established in India.
