

KANSAS
LEADERSHIP
CENTER

**When
everyone
leads**

1.

Tough challenges are all around us.

2.

Most think leadership is a position. (It's not.)

3.

Leadership *isn't...*

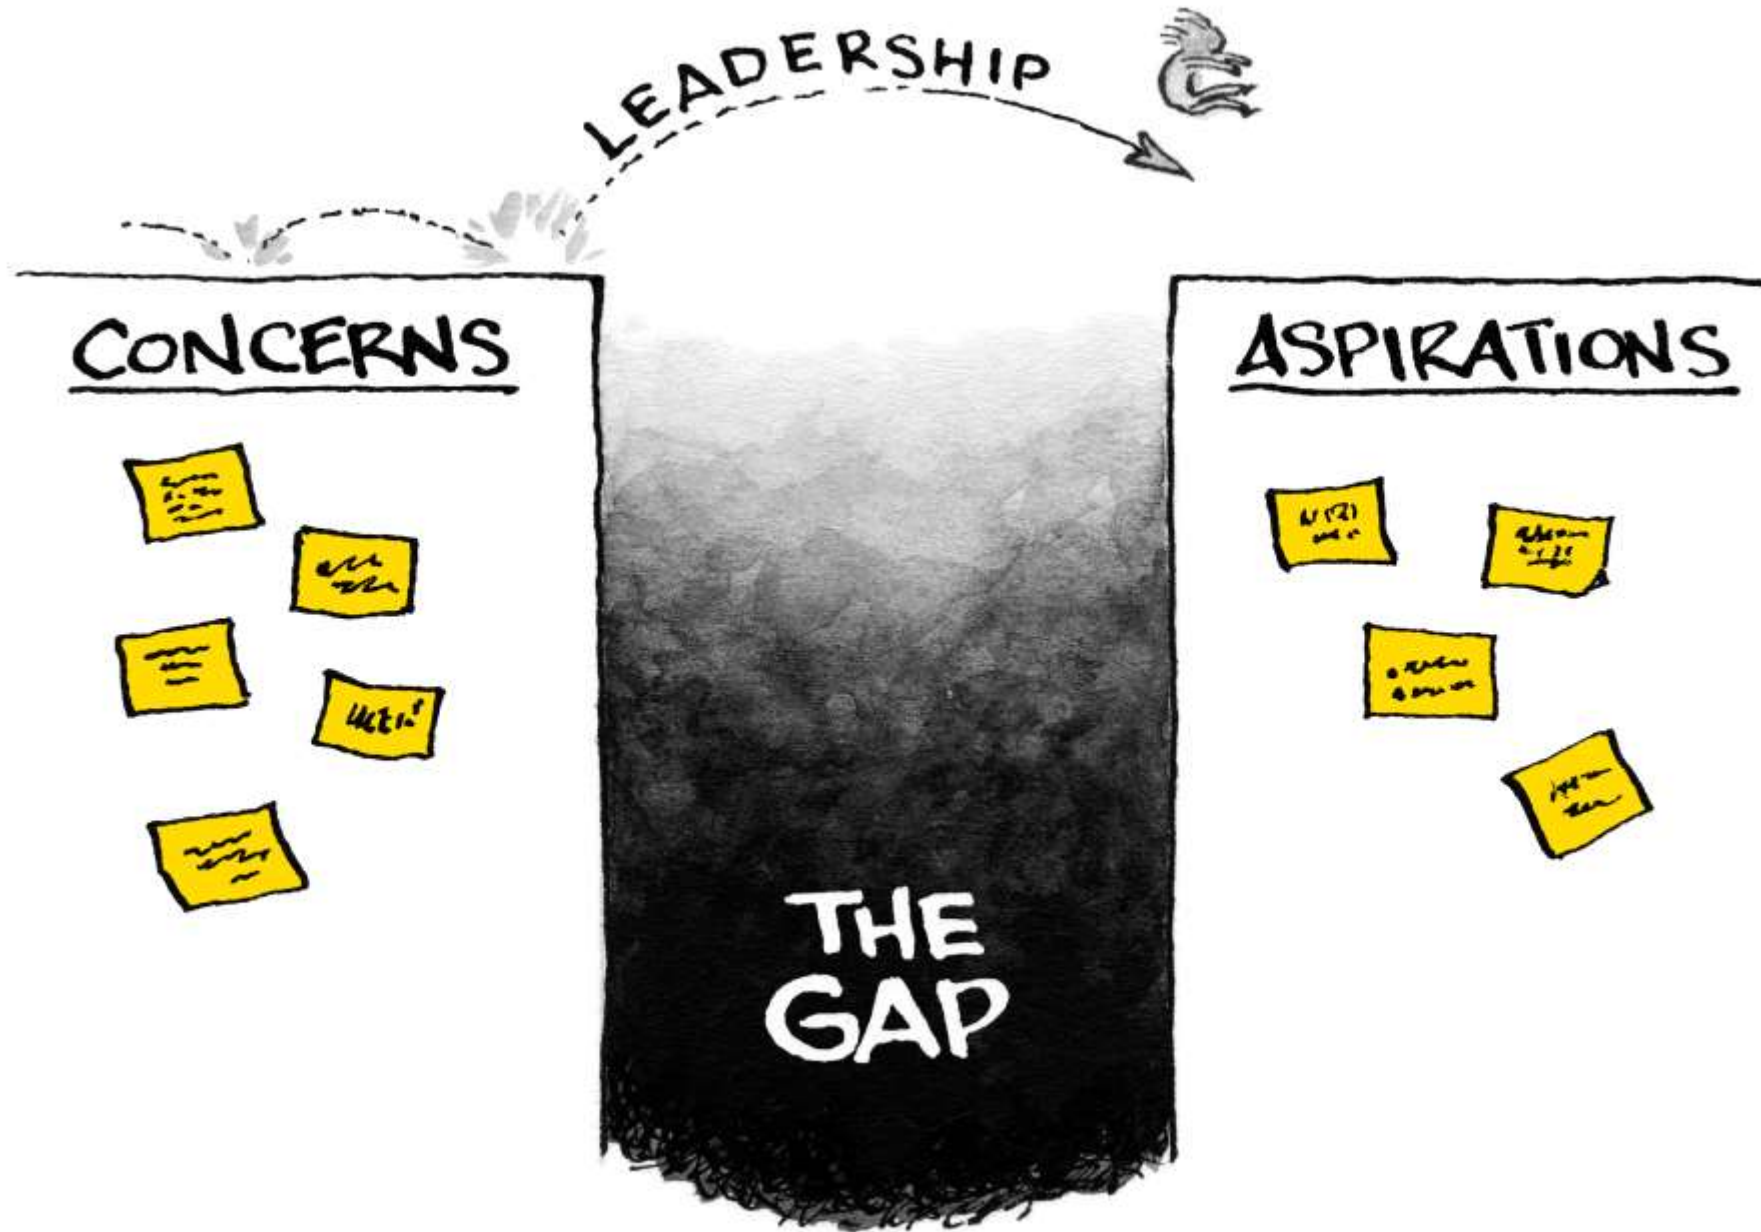

Authority. Being the boss. Vision. Charisma. A servant's heart. An inspirational speech.

10.

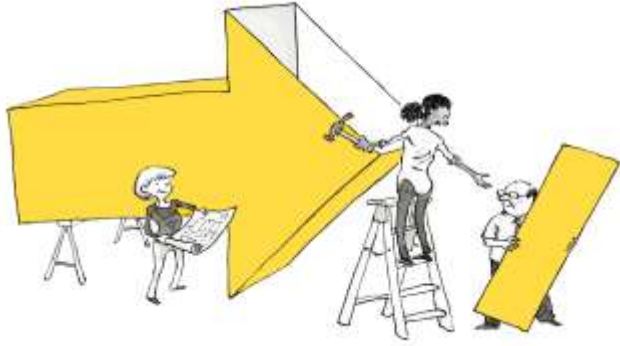

It's not leadership if it's not about our most important challenges.

When everyone leads,
we make progress on our
most important challenges.

When you think about the future,
what concerns you **the most**?

When Everyone Leads

When you think about the future (of your organization, company, community, or family) what is your boldest aspiration?

What makes leadership so difficult
in the gap between
concerns and aspirations?

Which barrier to leadership gets in your way most? How do you get around it?

1.

Our toughest challenges involve loss.

2.

Values clash when you seek to close The Gap.

3.

Quick fixes don't work.

4.

Authority is never enough to close The Gap.

5.

Leadership is risky.

You don't
need a title
to start
leading.
