[Rotary Club of South Austin](https://www.southaustinrotary.com/) loves to SERVE!! This past week, members added the final touches to our project at [Mainspring Schools](https://www.southaustinrotary.com/), installing shingles to the two toy sheds we built this past fall. The new toy sheds have created a safer environment for the kids to play in. The previous sheds were broken and falling apart.

Join with us for our next project: <https://www.southaustinrotary.com/>
