

The iron lung is ready for display by clubs for special events!

Contact DA Shirley Pinnix-Evans with a request including a copy of the driver's license of the individual to pick up the trailer, a copy of their insurance card and the location, date, and name of event. Towing vehicle for the trailer requires a 2-inch ball and has a plug-in pigtail to hook up lights. Shirley will need a pick up and return date. Contact information for DA Shirley: rotary5830da@gmail.com or 903-787-8275.

Each community can only have a priority request for the same event once a year, but they can make a request for the same event every year on the off chance that no one else will want the trailer for that same date.
