

### **District 5830 District Governor Official Visit**

In an effort to make the official visits to your clubs more than just sharing my views on Rotary and the opportunities and challenges I see for our district and clubs, I am asking you to prepare for me some materials to review at least two weeks prior to my visit. I will begin my visits in earnest in mid-July, so you will have the opportunity to share your vision and goals with your club before I come. Most of what I am asking for can be compiled prior to your installation as club president.

- **Club Goals for 2022-2023.**
- How you are planning to implement and accomplish your goals.
- **Membership Growth Plan**- we can discuss challenges and opportunities for attracting new members.
- Plans for achieving **The Rotary Citation**.
- Plans for supporting the **Rotary Foundation- Annual Fund, Polio Plus and the Endowment Fund**. This will include fund raisers and new ideas for raising funds.
- Plans for celebrating **World Polio Day** in October.
- List of **Service Projects** you have lined up for 2022-2023 and projected outcomes. What is your club known for and most proud of?
- How you are implementing the tracking of hours of service and funds raised by your club each month to measure the impact your club has on your community. These will be reported to RI.
- Your plan for improving the **Public Image** of Rotary and your club specifically in your community.
- Lastly, any issues of concern or needs you have and how your Club's Board is working to solve them. We can look at how the District Governor and/ or District Committees might be of assistance and service to you.

Please send this information and material to me at my email address or let me know if you have questions.:
