

Use the Teleprompter app to type in your script (up to 750 characters).  
Script Q&A:

1. State your Name
2. State your Club Name & Town
3. State your Company/Organization/  
Business and position
4. How long in Rotary?
5. What's your favorite aspect of Rotary?
6. What's your favorite club program/project?
7. End with a People of Action tag line
  - a. Together, We end Polio
  - b. Together, We connect/mentor/learn/serve
  - c. Together, We inspire/empower/transform

**Landscape**  
or  
**Portrait**  
Simply rotate your device

Control the **speed** of scrolling

Use the play/pause button to practice, or to pause scrolling during recording

**Edit** your scripts

Open the **settings** menu to configure it to your needs

### A quick guide to the settings menu

1. Change the size of the script font.
2. Mirror the script (for use in a professional teleprompter device)
3. Text area is easier to read when large but keeping it small ensures your eyes move less when reading.
4. After recording the app can create a video with subtitles automatically added. 'Both' will result in 2 videos being saved, one with and one without subtitles.
5. Add a countdown before recording to get into position.
6. Add a countdown after recording to automatically stop recording. '-' means you need to press stop yourself!
7. Show a timer in the corner of the screen so you know how long you've been recording.
8. Add a helpful grid on the screen to compose the perfect video using the 'rule of thirds'.
9. Lock the Auto-Exposure (AE) to get the perfect lighting.
10. Choose between the Front and Back facing cameras
