

Greetings Club Presidents,

You are now well into your second quarter serving as club president. I hope you are keeping the fun in your leadership and having a good experience. As Mahatma Gandhi has stated, “The future depends on what you do today”. Please keep the following on your radar screen:

- **Newsletters** – Set a good example by sharing with your members something you found interesting in the district newsletter. Encourage your members to read the newsletter thoroughly and then pass it on to non-Rotarians.
- **Reporting Club Attendance** – It is no longer necessary for your club to report its attendance figures to our district office...however it **is** important for you to continue keeping track of attendance to keep tabs on who is or is not attending.
- **One Rotary Summit** – 44 clubs participated in one of the 3 events we offered earlier this month. Yay! If your club was represented, make sure the information is shared with your club members. If your club did not attend, you missed out on a great learning opportunity to make your club stronger, healthier and more vibrant.
- **Bike Project Update** – 576 bikes to date. I’m meeting with World Bicycle Relief Staff soon to see if they are willing to offer a year-end match like they did for July. Stay tuned.
- **Ride to End Polio** – This bike ride (regular or stationary) will be held during the week of Nov. 13-20. Contact the coordinator Susan Herrick (s.herrick@mchsi.com) for details to see how this can work for your club.
- **Toot Your Horn!** –
 - Make sure a person (or committee) is appointed with the sole purpose of getting the word out in social or print media about how cool your club is and the difference it is making.
 - Send news about your club to btubbs@northscottpress.com for possible inclusion in the next district newsletter.
- **Red Kettle Campaign** – December 2 is the official date for Rotarians in our district to ring the bell for the Salvation Army. If this date doesn't work find a date that does. Be sure to have Rotary signage at the location.
- **PE and PN** – Hopefully a President-elect (2018-19) and President-nominee (2019-20) are in place by now. If not, try to have these positions filled no later than January 1. Remember, NCPETS is in Rochester March 8-10 (Thursday evening – Saturday noon).

Remember; don’t hesitate to contact me for any reason. My #1 priority is to serve you well so we all can make a big difference in the world.
