District 6040
Rotary Foundation Annual Report Rotary Year 2024-25

Summary

The 2024-2025 Rotary year was a great year under the leadership of our District Governor, Erik McGuire. Rotarians were doing great things in our communities and throughout the world. Rotarians, continue to be experts at “making magic in the world through the Rotary Foundation”. In addition to the funds raised below, a number of clubs also benefited from a one year change in the District Grant funding match requirements. Clubs whose officers (2) attended the PETs training, in Springfield, Missouri, could apply for one District grant of up to $2,500.00 without a match from the club. This was possible due to the large amount of funds raised in 2021-2022.

In 2021-2022, Rotarians in District 6040 donated $401,035.63. to Annual Fund/SHARE of The Rotary Foundation (TRF). Three years later, in 2024-2025, District 6040 received 47.5% of that amount ($190,169.41 in **District Designated Funds,** one-half to be used for district grants and scholarships and one-half to be used for Global Grants and scholarships. Additionally, the district received $17,060.86 in Endowment Fund/SHARE earnings and carry-over Global Grant Funds of $175,941.38 from previous years. From the funds raised, the district made the following ***investments in 2024-2025***:

District Grant projects in our local communities (sponsored with District Grants funds) - $74,320 from our Rotary Foundation donations was invested directly in Missouri communities through district grants. With club and community support, these projects totaled $147,621.

.

District Grants – Twenty-one clubs received funds to invest in their communities.

- **Blue Springs –** (2 grants were required to fund the entire project. Funds were available) The proposed project aims to equip the four high schools and six middle schools in Blue Springs and Grain Valley, Missouri, with lifesaving trauma kits. As the High Schools are larger than the middle schools, we aim to provide each High School with two of these such kits. These kits will be strategically placed in locations likely to maximize accessibility and effectiveness, such as next to the schools' automatic external defibrillators (AEDs). The kits would be contained in a specially designed cabinet so that the contents are protected from unauthorized/unnecessary access. Each trauma kit will contain essential medical supplies, including bandages, tourniquets, instructional materials, and other critical items necessary for emergency response. Total project $5,940.00; District grant $2,500.00 x 2 = $5,000.00. Number of children served: Many.
- **Chillicothe –** Overall project is a shelter house at the newly constructed Chillicothe Elementary School which is an addition to Chillicothe's education campus. The District grant would cover the 30-inch diameter Rotary International sign as well as partial material and supplies cost. The new one campus school district in Chillicothe, Missouri is void of any shade including trees as it's built on historical farmland. A shelter house will provide the student's much-needed shade due to the heat and humidity in Missouri. It will also provide protection against the potential for skin cancer or other related UV exposure conditions. Total project $20,708.71; District grant $2,500.00. Number of residents served: Many.
- **Chillicothe #2 –** Step Up is an anti-bullying program for 9 year old girls. It trains seven girls per semester. In other locations where this program has been in place, bullying as well as behavioral issues have declined. The girls use these skills throughout high school, and beyond. Funding is always a challenge in schools for other than classroom curriculum. Grant funds will enable schools to start this program and see the benefit it provides so that they will believe in funding the project for future years. Total project $1,896.45; District grant $1,500.00. Number of children served: 14.
- **Kansas City –** Easy access to outdoor musical instruments provides an outlet that encourages children to use music to deal with emotional issues especially when they are unable to express them through speech. Where words fail, music is a medium to explore one's inner world and experiences. The easy, non-challenging way in which outdoor musical instruments can be played offers a healthy way to express emotions like sadness, anger, aggression, happiness, and excitement. Learning how to express themselves is critical to a child's mental, social, and emotional growth. Total Project 20,000.00; District Grant $2,500.00. Number of children served: Thousands annually.
- **Kansas City #2** – Work with Sleep in Heavenly Peace; a 501c3, to build 20 beds for underprivileged children in KC area. These children do not currently have beds and are sleeping on couches or the floor. Total material cost per bed is $250.00. Labor will be provided by the club at a build day organized by Sleep in Heavenly Peace organization at their facility. Total project $5,000.00; District grant $2,500.00. Number of children served 20.

- **Kansas City – International –** The project is to develop a Butterfly Pollinator Garden in Michael Gunn Park which is part of the Platte County Parks System. A Site Plan and other drawings illustrating the ultimate development of the garden are included with this application. The park currently is largely undeveloped and work will be completed in conjunction with the Parks Department as they are making improvements throughout the property. They are constructing trails around and through the garden area and will prepare the area for planting. KCI Rotary will seed the garden, assume responsibility for maintaining it for approximately three years until it is established, provide and install benches throughout the area, and provide and install signage in a number of locations including a central monument sign which describes the annual migration of Monarch Butterflies. Every sign will include a statement relative to the involvement of Rotary in the development of the garden. The Missouri Department of Conservation will provide technical assistance and may supply additional funding. A grant request for funds is being submitted to the Conservation Department. The estimated budget includes the entire development of the garden and the Parks Department has agreed that the project should proceed if available funds allow only a portion of the work to be completed initially. For example, it is understood that installation of some of the proposed signs and benches may necessarily be deferred. Future development may also include asphalt pavement of the trails and lighting. Total project $44,700.00 District grant $2,500.00. Number of residents served many.
- **Kansas City – Plaza –** The Domiciliary works with the Veteran's Treatment Court in Leavenwoth, KS. Veterans who are sentenced to drug treatment court must spend 90 days in this facility and participate in substance abuse treatment in order to fulfil their obligations to the judge in treatment court and avoid harsher legal penalties. Veterans who participate in this program must immediately enroll in the program at the Domiciliary. They usually have no hygiene items, laundry detergent or other essential products when they arrive. Due to the nature of the program they cannot leave to obtain these items. The Domiciliary is seeking community partners to help fund a portion of hygiene kits and products needed by the residents. The Veteran's Satellite Club participates in other programs with the Domiciliary and they have been approached to help fund these kits as funding from federal sources becomes harder to secure. The objective is to provide a portion of the kits necessary for residents and to continue the club's partnership with the Domiciliary and the services it provides to Veterans participating in his substance use treatment programs. The District Grant will be used to purchase hygiene products and detergent. Total project $2,100.00 District grant $2,100.00. Number of Veteran’s served many.
- **Kirksville –** This is an ongoing project between the Rotary Club of Kirksville and the Forest Lake Area Trail System (FLATS). We are just about to cross the finish line on the FLATS Trailhead Rotary Nature Playscape that will become a Kirksville City Park later this year. Finishing touches including containing the large poly-concrete log play area by surrounding out with 8' log benches; planting trees, shrubs, and wildflowers; purchasing and spread- ing a dump-truck load of decorative creek gravel to complete the drainage swale that bisects the park, and installing the rustic trailhead sign. A Grand Opening is being scheduled for September when FLATS and the Rotary Club will transfer ownership of the park to the City. Total project $5,000.00; District grant, $2,500.00. Number of residents served many.

- **Kirksville #2 –** Planting of 20 trees in Kirksville's Rotary Park. The Club will purchase 20 oak and maple trees from a local nursery and will assist the City of Kirksville in planting them in Rotary Park. This is part of the City's tree plan for the park and continues the Club's commitment to enhance the park that bears our name. Originally named Swimming Pool Park, Rotary Park is located along Baltimore Street / Business US Highway 63 just north of Cottonwood Street and the Adair County Public Library, along East Mill Street. Rotary Park has three covered picnic shelters with electricity and barbecue grills. The Lower Shelter is 20' X 48' and has 8 tables, the Middle Shelter is 20' X 38' and has 5 tables, and the East Shelter is 20' X 50' and has 6 tables. Rotary Park also has restrooms, a popular snow sledding area, and a playground structure. This park is also *home* to the Kirksville Aquatic Center and Kirksville Parks and Recreation Offices, the Ray Klinginsmith Amphitheatre, and a 9 hole disc golf course. Total project $5,000.00; District grant, $2,500.00. Number of residents served many.
- **Kirksville #3 –** Step Up is an anti-bullying program for 9 year old girls. It trains seven girls per semester. In other locations where this program has been in place, bullying as well as behavioral issues have declined. The girls use these skills throughout high school, and beyond. Funding is always a challenge in schools for other than classroom curriculum. Grant funds will enable schools to start this program and see the benefit it provides so that they will believe in funding the project for future years. Total project $1,000.00; District grant $436.00. Number of children served: 14.
- **Kirksville – Thousand Hills** – The Adair County Schools have an Anti-bullying campaign in their middle school. This project will bring in a motivational speaker who focuses on "inspiring measurable acts of kindness" with groups. School district is trying to impact the culture at the middle school of 500 students. This will also involve the high school Interact Club as they serve as peer mentoring. Total project $5,014.16; District grant, $2,500.00. Number of children served 500.
- **Lawson –** This project will create a 16'x 16' public fire pit recreational area with park benches. This recreational area will be provided at the City of Lawson's RV Park which is open to the public. The objective is to provide a public space where members of the community and people from outside the area can meet and talk. Total project $2,680.80; District grant, $2,500.00. Number of residents served many.
  Lawson #2 – This project will repair and upgrade the roof of a public shelter house at the Lawson City Lake. This shelter house was constructed many years ago as a prior Rotary Club of Lawson project and donated to the City of Lawson for public usage. Total project $2,610.00; District grant, $1,300.00. Number of residents served many.
- **Liberty –** Hillcrest Transitional housing empowers the homeless and working poor to achieve personal independence through transitional housing, accountability, education, and community support. training. The project completed the rehab of an apartment recently damaged by a clean water leak. The scope of the project would include removal of the old flooring throughout (approx. 750 sq/ft), installation of new vinyl plank flooring, installation of new quarter-round, and painting of new trim and minor wall touch-ups. The estimated cost of the new flooring is $1500. The additional funds would cover the cost of paint, trim, and renting a dumpster to depose of the current flooring. Total project $4994.88; District grant $2,500.00 Number of residents served; many.

- **Macon County –** The project is renovating the current fence around the historical 'Yellow House' located at 406 N Rollins in Macon, Missouri with an outward goal of using the house for varying local showcases and enhanced tourism. This home was built around 1871, making it the oldest home in Macon. Although the house has not been occupied for many years, it hasn't been altered from its original Civil War-era style. In 2023 the house was gifted to the Macon Downtown Association. They intend to preserve its original character. The fence surrounding the property is currently in disrepair. Macon Rotary Club's intention with grant funds is to contribute toward its repair. Total project $2,535.36; District grant $2,500.00. Number of people served many.
- **Macon County #2** – This project is the purchase of 2 substantial benches for the citizens attending downtown functions in Macon. Rotarians will purchase three large, galvanized planters and the soil to fill those planters. These additions to downtown will enhance aesthetically the downtown area and promote a welcoming and festive space for visitors and its citizens. Total project $5,000.00; District grant $2,500.00. Number of people served many.
- **Macon County #3** - Renovating the fence around the Van Cleeve - Doneghy Museum aka "Yellow House" is a highly visible project drawing attention to the historical site in Macon. This grant will provide additional fencing not covered in District grant #1. The historic home with its ornamental cornice design **is** distinctive in the style of architecture **of** the Civil War era. The Macon Downtown Association plans to utilize the home for community events and historical seminars. Total project $3,705.26; District grant $1,650.00. Number of people served many.
- **Marceline –** The project would be the purchase and installation of two (2) All-Aluminum picnic tables, one being an ADA picnic table at the picnic shelter located near the playground equipment and ADA fishing dock in Walt Disney Park. This shelter house is centrally located in the park with access to the ADA fishing trail, ADA walking trail, playground equipment and an ADA restroom. The recently installed corn hole boards made possible through a Rotary Grant is next to this shelter house as well. The addition of these picnic tables will compliment and increase the accessibility for all persons to enjoy and experience nature. A plaque will be added to the shelter house so those utilizing the facility will know who made this addition possible. Total project $2,200.00; District grant $1,100.00. Number of people served; many.

- **Odessa –** This project will build the Raptor Point Trail, a one-mile trail at the old Odessa city reservoir. This trail will be an extension of our 2023-2024 grant project, the Rocky Roots Trail. The one-mile extension will begin to build the trail system around the main reservoir lake, and hikers will need to hike two miles to complete the trail as it has no outlet. Since the creation of the Rocky Roots Trail, we have seen a large increase in people using this recreational area. Trail project will involve clearing the trail to provide a safe moderate hiking trail, remove noxious weeds such as poison ivy within 3 feet of the trail's center line, creating educational signs about the bird wildlife in vicinity of the trail and install fishing line disposal. Total project $5,320.00; District grant $2,500.00. Number of people served; many.
- **Parkville** - This project involves installing two beautiful butterfly gardens in English Landing Park. This particular garden; (Circular raised butterfly garden) will feature benches for relaxation, numerous plants and informative signage. The project aims to create a serene space for the community to enjoy, while also promoting Rotary's commitment to peace and environmental stewardship. The low water butterfly garden will be another service project and will include a peace pole. Total project $6,914.10; District grant $2,500.00. Number of people served; many.
- **Parkville #2** – This project involves installing a beautiful butterfly garden in English Landing Park, at the entrance to the low water bridge. This garden will feature a Rotary Peace Pole, informative signage, and numerous plants (approx. 96) selected for their low level of care and also because they attract butterflies. The project aims to create a serene space for the community to enjoy, while also promoting Rotary's commitment to peace and environmental stewardship. Total project $2,694.00; District grant $1,182.70. Number of people served; many.
- **Plattsburg** – Benches, trashcans and flower planters installed twenty years ago downtown had begun rusting. They needed to be cleaned and powder coated to get them back to the way they looked when they were installed. The club removed cleaned and got the items powder coated and then they replaced them in the downtown area. Total Project $4,016.00; District Grant; $2,000.00. Number of people benefited; many.
- **Raytown –** Geeks for Kids provides children with disabilities receive modified battey operated cars and assist devices. This project will buy the basic cars from Fisher-Price and also include the remodeling of the cars to meet the requirements of the disabled child. This grant will allow them to acquire 15-18 cars. The club will volunteer on build days for the cars and on delivery days when the cars; after modifications are provided to the children. Total project $2,500.00; District grant $2,500.00. Number of children served At least 15 to 18.

- **Richmond –** Richmond Rotary Club is partnering with Ray County Hospital and Healthcare (RCHH) to build a demonstration kitchen which will provide cooking classes to the public. Our main goal is to provide education in preserving and preparing fresh fruits and vegetables. This will work hand in hand with the new population health initiative which provides fruits and vegetables to recipients, who so often have no idea how to cook them. Example: Dragon Fruit, Different kinds of squash. The district grant money will be used to purchase appliances for the demonstration kitchen. This project will teach recipients of free commodity boxes full of fruits and vegetables how to cook these items so the items don't end up in the trashcans because of not knowing how to prepare them. Thus this project will also combat hunger, which is a problem in our community. Total project $7,383.91; District grant $2,500.00. The number of people served many.
- **Richmond #2** – Purchase and install various pieces of exercise equipment at Shirkey Nursing and Rehabilitation center. This will help individuals with disabilities or with rehabilitation from injuries get the exercise they require. Total project $4,495.00; District grant $2,500.00. The number of people served many.
- **St. Joseph East –** St. Joseph East Rotary installed two outdoor benches and landscaping at the St. Joseph YWCA. The St. Joseph YWCA provides emergency housing for survivors of domestic and sexual violence and their children. The YWCA is located downtown in an urban setting and there are currently not a lot of options for residents to simply sit outside and feel safe and protected. The installation of these benches and the related mature bushes surrounding them will provide a sense of privacy and peace and allow residents to enjoy more time outside aiding in their recovery. In this project, two outdoor concrete pads will be poured, two commercial outdoor benches installed on the pads, large mature bushes planted as a privacy screen, and rock mulch added to complete the landscaping. Total project $5,044.31; District grant $2,500.00. Number of families served; many.
- **St. Joseph #32 –** Downtown beautification project in cooperation with the City of St Joseph, Missouri. Club will provide equipment and labor for landscaping and a mural. Total project $2,862.53; District grant $2,500.00. Number of people served; many.
- **St. Joseph #32 #2 –** Downtown beautification project in cooperation with the City of St Joseph, Missouri. Club will provide equipment and labor for small Christmas huts modeled on a German Christmas village. Total project $2,500.00; District grant $1,250.00. Number of people served; many.
- **St. Joseph #32 #3** – Step Up is an anti-bullying program for 4th and 5th grade girls. It trains seven girls per semester. In other locations where this program has been in place, bullying as well as behavioral issues have declined. The girls use these skills throughout high school, and beyond. Funding is always a challenge in schools for other than classroom curriculum. Grant funds will enable schools to start this program and see the benefit it provides so that they will believe in funding the project for future years. Total project $587.76; District grant $587.76. Number of girls trained: 4.

- **Trenton –** The Bright Futures program has many projects to help children. They are in the process of purchasing a building for storage in Trenton and need to run water and sewer lines to the property to be able to add a bathroom and wash sinks for the volunteers. Installed the bathroom and water and sewer lines. Total project $7,020.47; District grant $1,500. Number of people served, entire community.
- **Unionville –** The "Putnam County- Be Informed!" project is to provide senior citizens in Putnam County information from experts on timely topics in a series of events. The events will be held in three locations: Lucerne in the west end of the county, Martinstown in the east end of the county, and Unionville, the county seat. In addition to friendly and informative presentations from experts, a meal will be provided, and printed materials will be available. Topics will include health care directives, holistic medicine, mental health/grief services, avoiding potential scams, property tax credits and other tax issues, and Medicare. Each session will be broadcast via Facebook and also recorded for viewing for those who were unable to attend. The objective is to engage at least 30 senior citizens and/or caregivers at each of 3 educational events. Unionville Rotary will provide speakers for this project as well. Total project: $2,520.00; District grant $2,500.00.
- **Unionville #**2 – "Covering Baby Bottoms in Putnam County" provided diapers and wipes to impoverished parents in Putnam County. Babies use approximately 6-12 diapers a day and along with wipes can cost up to $100 a month. Putnam County, a rural county made up of less than 2,000 households, is a diaper desert, and is not served by any diaper coalition. Missouri Kids Count 2023 estimates 22% of children in Putnam County live in poverty. Objectives of the project are: 1) To educate a majority of residents on the need for diaper and wipes donations. 2) Collect at least 300 packages each of diapers and wipes through local drop off sites and diaper drive events. 3) Distribute at least one pack of diapers and one pack of wipes for at least 250 children at a community baby shower event. Diapers and wipes will be purchased at the lowest price possible to fulfill the needs of the community. Any excess donations, as well as future donations, will be distributed through the WIC program and the local Hygiene Pantry. The community baby shower event will be held at a local venue and will have a festive atmosphere complete with decorations, snacks, and give-a-ways. Educational materials will be provided along with the diaper and wipes distribution. Total project: $5,013.00; District grant $2,500.00.
- **Weston –** This project involves installing a tongue and groove cedar ceiling & covering the fascia in a large gazebo in the main park in Weston. This is needed in order to keep birds from nesting and will be a long-term solution. The Gazebo is dramatically under-utilized due to its current bird infestation/condition. We have completed other grant-funded projects in this park and adjacent areas, including the Kimbrough Challenge. Located in the center of town the Weston Park is a critical community gathering place. Total project $11,438.57; District grant $2,500.00. Number of people served 1,000+.

Global Grants - District 6040 invested
$190,200 of our District Designated Funds for Global Grant projects.
With funding from other Districts, clubs, and
World Funds, the total funding for Global Grant projects
in which our District or clubs were a part of totaled $1,918,571.

Global Grants Internationally sponsored by District Clubs:

- **Kansas City Club Club; GG2348249 Environment:** Partnered with the Monterrey Metropolitan Rotary Club and Kansas City Southern Railroad. Every year Mexico has the privilege of hosting a wonderful migration phenomenon, unique in the world, carried out by the migratory Monarch Butterfly, considered in 2022 by the International Union for Conservation of Nature (IUCN) as an endangered species. 2,594 hectares of forest have been recovered in the overwintering sites of the Monarch Butterfly, thanks to coordinated action between the environmental authority, civil society organizations and the participation of ejidos and indigenous communities. One of the measures to reverse the effects of deforestation and forest disturbance due to social and natural causes is reforestation. For this reason, the Monterrey Metropolitan Rotary Club with the support of Kansas City Southern (KCS), and with the Participation of the Protection of Mexican Fauna A.C. (PROFAUNA) and the Neovolcanic Axis Conservation Fund A.C (FOCEN), in 2021 successfully began a reforestation of 10,000 trees in 4 hectares of forest of the RBMM located in the Ejido El Rosario. This project funded the reforestation of 60,000 additional trees in the Monarch wintering area.
  DDF $10,000.00. World Fund: $28,800.00 Total Project: $110,395.00.
- **Lee's Summit; GG2344425 Disease prevention and treatment:** Partnered with the Nkwazi Rotary Club in Lusaka, Zambia. There is a shortage of medical supplies and equipment throughout Health Centres in Zambia leading to overcrowding at main referral hospitals and potential life threatening situations. In some Health Facilities, hospital linen is being handwashed as machines broke down several years ago. Lack of equipment also leads to low morale, frustration and resignations of experienced medical personnel from Government Health Centres. The Rotary Club of Nkwazi, Lusaka, Zambia and Rotary Club of Lee's Summit, Missouri, USA intend to work with an International NGO, Project CURE USA to bring in much needed medical supplies and hospital equipment for distribution to Health Centres in Lusaka. The donated equipment includes physio and rehabilitation equipment. Project CURE USA successfully conducted a needs assessment by visiting 10 health facilities in Lusaka, Zambia and mirroring 13 others. The visit was preceded by each Health Facility having submitted a list of their requirements. The attached needs assessment report concluded that to meet the needs of the facilities, 8 x 40 foot containers of donated medical supplies and equipment will need to be shipped to Zambia, with each container having US$300,000 to US$400,000 of equipment and supplies. The needs assessment ensured that each container will be customised to the needs of each Health Facilities.
  DDF $102,000.00. World Fund: $131,000.00 Total Project: $295,000.00.

- **<u>Liberty;</u> GG2239924 Disease Prevention and Treatment, Maternal and Child health:** Partnered with the Maryland, Ikeja Rotary Club of Nigeria. Rotary Family Health Days, RFHD, is the signature program of the Rotary Action Group for Family Health and AIDS Prevention, RFHA. It is a unique and longstanding initiative that provides free health screenings and connects marginalized communities to critical health information and resources. The RFHD is a public/private partnership program. RFHA works with Rotary clubs and program partners, principally the Federal and State ministry of health, related NGOs and Rotary Community Corps.
  The 2024 Rotary Family Health Days will be a three-day integrated, holistic, comprehensive, preventative health program for both communicable and non-communicable diseases.
  DDF $25,000.00. World Fund: $120,000.00 Total Project: $271,000.00.

<u>Global Grants sponsored by District 6040:</u>

- **Education is Power – Digital Interactive classrooms for a better learning process in Panama's schools;** GG2348095 Basic education and literacy:
  DDF $10,000.00 World Fund $67,596.00 Total Project $220,491.00.
- **Mental Health – Sibling bond Model;** GG2459209 Disease prevention and treatment.
  DDF $5,000.00 World Fund $75,000.00 Total Project $168,750.00.
- **Create new dispensary to serve basic healthcare needs of underserved residents of Nyapora-Mumias;** GG2351944 Disease prevention and treatment:
  DDF $5,000.00 World Fund $107,480.00 Total Project $279,930.00.

<u>Heart 2 Heart (Zone 30-31 Heart Of America Districts to Central Mexico Districts):</u>

- **Project "Angel" II Intensive program for children for with cerebral paralysis:** GG2459119 Disease prevention and treatment.
- **DDF $3,000.00 World Fund $33,774.00 Total Project $80,993.00.**
- **Holtz-Beahon Kidney transplant program 2025**: GG2571397 Disease prevention and treatment.
  DDF $2,500.00 World Fund $104,239.00 Total Project $243,158.00.
- **Neonatal cardiac screening:** GG2463524 Maternal and child health.
  DDF $5,000.00 World Fund $67,437.00 Total Project $152,733.00.
- **Autism Center equipment.** GG2463421 Disease prevention and treatment.
  DDF $6,000.00 World Fund $28,694.00 Total Project $66,061.00.

Global Grant Scholarships:

- Riley Garrett to pursue a Graduate Degree at Simon Fraser University in Vancouver British Columbia, Canada; Studying urban analysis of sustainable development. **DDF $16,700.00 World Fund $13,360.00 Total Project $30,060.00.**

In addition to the District and Global grants and scholarships we also transferred $20,000 in DDF to the Polio-Plus campaign to match contributions from our clubs and we donated $2,500 to the Disaster Response grant in response to two different disasters in our Rotary zones 30-31.

Rotarians and donors contributed over $50 million in 2024-2025 to PolioPlus bringing the total to $150 million with $100 million in funding from the Bill and Melinda Gates Foundation.

Donations to the Rotary Foundation ending June 30, 2025 totaled $406,478,000 and Total Foundation program awards in 2023-2024 were $306,124,000.

Thank you, District 6040 Rotarians, for Doing Good in the World!
