Re: 2021 – 2022 District 6330 Grants Review
Date: 21 September 2022

As chair of the 2021-22 District Grant Review Committee, I am pleased to report that the committee has found the District Grants issued by District 6330 to have been executed and closed in full compliance with the Rotary Foundation rules. Further, the committee has verified that the District Designated Fund disbursements made by the district's Grants Committee balances to the total shown on the bank statement and reported to The Rotary Foundation.

Committee members were PDG Thomas Robitaille, chair, and PDG Joseph Reynolds. All 25 grants approved in 2021 – 2022 were reviewed in detail to assure that receipts balanced with expenditures and that the district contribution did not exceed .50 cents per dollar contributed by the club. This included nineteen grants more than \$ 1,000 and six under \$ 1,000. It was confirmed that a total of \$ 36,637.00 was contributed toward District Grants by the district and that the disbursements were made in accordance with district and Rotary Foundation rules.

The committee is satisfied with the implementation of Rotary Foundation and District Polices and commends District Rotary Foundation Chairman Martin Ward and his committee for its time and expertise to make this world a better place.

Thomas H. Robitaille, PDG
Chair, District Grants Audit Committee
