

Water & Sanitation Rotarian Action Group

Welcome to the Water & Sanitation Rotarian Action Group (WASRAG)!

For those of you who have expressed an interest in supporting Rotary's work in water and sanitation, you are invited to join this Rotarian Action Group.

The mission, as you will see from the website is:

“To provide information, support and encouragement to Rotarians, Rotary Clubs and districts to take active roles in projects/programs to develop safe water and sanitation as a means of promoting health and alleviating hunger.”

It is proposed to achieve this mission through a broad range of strategies, many of which can involve you personally.

To become a member of this action group go to the website www.wasrag.org. There you will find a copy of the bylaws and a number of links and folders designed to provide information and support to any Rotary club and/or Rotarian embarking on a water initiative.

Please go to the website's "Sign Up" page. There you can apply on-line or download the Application for Membership.

Please explore the website. Over the next few months we will refine and expand the information on the site to make it as user-friendly and helpful as possible. So, please give us your feedback via our information link: info@wasrag.org.

F. Ronald (Ron) Denham PDG,
Chair, Water & Sanitation Rotarian Action Group
