

Friendship Exchange with District 3040 - India

There is a Friendship Exchange with District 6040 in India from January 26 to February 7, 2017, including attending their District Conference and participating in an NID activity. There are 8 Rotarians/Spouse from District 6440 participating in the exchange and the scheduled itinerary has them participating in a wealth of cultural and Rotary activities.

The Rotarians from District 3040 will then be visiting District 6440 in May, tentatively the 2nd-3rd week of May. There will be approximately 5 couples participating in the exchange and it would be fantastic if we could get several clubs in clusters to host the team for a couple of days over the time they are with us so that they can experience the unique aspects of the entire district.
