

WEEK 28 FOUNDATION MINUTE – ROTARY SCHOLARSHIPS

In District 6440, Rotarians pursue the commitment of Vocational Service by guiding and training others to find gainful, fulfilling employment. We work with young people in the community to help prepare them for their future through mentoring programs, job fairs, and especially through our vocational scholarship program.

Rotary offers a wide variety of scholarships to enable qualified candidates to develop expertise which qualifies them for careers in local businesses, national and international corporations, non-profits organizations and government and international agencies. Vocational scholarships can fund study at community colleges and trade-or skill-based vocational schools, while global grant scholarships fund master degree level studies at some of the world’s most prestigious universities.

Rotarians and Rotary Clubs are encouraged to identify qualified candidates and provide the mentoring, support and coaching to prepare the application. This is the essence of vocational service – to lend a hand to our youth so that they can have a more successful and fulfilling future.
