

## WEEK 30 FOUNDATION MINUTE – DOING GRANTS? YOU NEED GMS!

By this time in any Rotary year, clubs begin to make plans for the coming year – appointing new officers, considering their opportunities, monitoring their member and donor contributions and training their committee chairs. They are also assessing their local communities and asking their global connections about what is needed to improve lives of less fortunate citizens. Plans for grants evolve and the seeds of district and global grants are planted for the upcoming year.

But to do **ANY** grants, a club must ensure that someone familiar with these plans attends GMS – or the **GRANTS MANAGEMENT SEMINAR**. This year's GMS seminar will be held virtually on the morning of February 6, 2021. **MAKE SURE SOMEONE FROM YOUR CLUB IS SIGNED UP FOR THIS YEAR'S TRAINING!** [2021 Grant Management Seminar Registration](#). You and your club members will gain the tools to do more good in the world; how the grants process works; what you need to do to write and submit successful grants; what your stewardship duties are; and how the dollars you donate are mobilized and matched to increase your club's impact through district and global grants.

Don't miss out – what you do in the 2021-22 Rotary year related to District and Global Grants depends on you.
