

Children's Treatment Network

Vision: Building brighter futures together.

Mission: Through the collective efforts of community partners, Children's Treatment Network (CTN) responds to the evolving needs of children and youth with multiple special needs in Simcoe and York by:

- Providing and enhancing services
- Championing system change
- Building capacity

Children's Treatment Network serves 7,000 children and youth with multiple special needs in York Region and Simcoe County from birth to high school exit. We work with partners in healthcare, education and community agencies to provide physiotherapy, occupational therapy and communication support for clients that use technology to help them communicate. In addition to these rehabilitation services, CTN also provides service coordination, intake, specialized clinical services, and developmental assessments for children with complex medical and developmental needs, including autism. Our clients are often diagnosed with autism, Down syndrome, cerebral palsy, spina bifida, genetic disorders or other conditions that require ongoing support throughout all aspects of their life.

For more information about the Children's Treatment Network:

Children's Treatment Network hopes that by working together with local Rotary Clubs they can enhance their ability to meet the needs of children and youth with special needs and their families in Simcoe County. They have identified several ways in which Rotarians can support the Children's Treatment Network. Please click here for a full list of their current needs: [CTN Funding Needs 2017](#)

If your club is interested in supporting the Children's Treatment Network, please contact Mary Riggan at mriggan@ctnsy.ca.
