Health Sciences North Children's Treatment Centre

Health Sciences North's Children's Treatment Centre is a family-centred community-based rehabilitation facility providing assessment, treatment, consultation and education to children and young adults with motor and communication impairments.

The **Children's Treatment Centre** strives for the best quality of life and health for its clients by enhancing their self-esteem and facilitating their function, independence and community participation.

The **Children's Treatment Centre** offers services for children aged 0-19. Some programs continue up to age 21. Healthcare professionals provide pediatric rehabilitation services in Sudbury and rural areas in the Sudbury Manitoulin District, including the communities of Sudbury East, Manitoulin Island, Espanola, Chapleau and the 144 corridor.

For more information about the Health Sciences North Children's Treatment Centre:

Health Sciences North Children's Treatment Centre hopes that by working together with local Rotary Clubs they can enhance their ability to meet the needs of children and youth with special needs and their families in Sudbury and the rural areas in the Sudbury Manitoulin District. They have identified several ways in which Rotarians can support the Children's Treatment Centre. Please click here for a full list of their current needs: [HSNCTC Equipment Wish List 2017](#)

If your club is interested in supporting the Children's Treatment Network, please contact Joanne Tramonti at jtramontini@hsnsudbury.ca.
