

Hello Fellow **District** Rotarians and Greetings from Peterborough!

The Rotary Club of Peterborough Kawartha is proud to be a supporter of the Monarch Ultra Marathon (MUM) project which was designed using a marathon relay race

format to focus attention on the educational and environmental concerns of pollinator habitat loss.

The Monarch Ultra is a 4,300km (2,670 miles) relay run, beginning in Peterborough on September 19th and will follow the migratory path of monarch butterflies from Peterborough to the Sierra Madre Mountains in Mexico. Ultra-runners are invited to explore a diversity of landscapes across the North American continent! **This will be one of the world's longest relay runs, amplified even more by the monarch migration and a documentary being produced along the way!**

Monarch Ultra website: <http://www.themonarchultra.com/>

View information on documentary being produced <https://vimeo.com/320645749/5ad552db71>

THE PROJECT COULD USE YOUR HELP and we are requesting that you consider assisting them with this initiative.

Financial Assistance:

If your club is interested in providing financial assistance, please forward a cheque to: Monarch Ultra Productions
