[My Rotary - New Members](#)

This [page](#) provides tips for new members.

To access additional resources available to members only, requires you to have an account.

[Creating an Account](#)

Please note that your **sign-in email** is different from your [ClubRunner](#) **login name**. However, once you have created your My Rotary account, you will be able to change your password to match your ClubRunner password.

New and existing My Rotary Account Holders

My Rotary account - you can now change your email sign-in address.

However, these are processed as two completely different things:

1. **Sign-in Email** = the email address you use to sign into My Rotary. It functions purely as a username. RI will not email you on this address just because it is your sign-in email. We now have the ability to change it! Please see the attached My Rotary screenshot for the location, which can be found by clicking Account Settings (top right) once you are logged in to your My Rotary account.

2. **Contact Email** = the email you choose for all contact purposes at Rotary. RI will contact you at this email. When you instruct data@rotary.org to change your email, this is the only email they will change.
