

One Kids Place

One Kids Place is a huge supporter of **community** and looks forward to many more years of enhancing the lives of children and their families.

One Kids Place provides services in the following areas:

- Occupational Therapy
- Speech Language Pathology
- Physiotherapy
- Social Work
- Therapeutic Recreation
- Infant Hearing Program
- Autism Services

Quality of service is a priority at One Kids Place. All of their service providers are qualified members of their respective Colleges and are mandated by their professional discipline. Their Children's Treatment Centre works with 20 other Centres across Ontario that are similar to **One Kids Place**. This collaboration helps to develop best practices for services by sharing ideas and expertise. Their Centres have an important link with a research group (CanChild) that focuses on children with special needs. This research evaluates client services and provides research-based recommendations for continuous quality improvement.

For more information about One Kids Place:

One Kids Place hopes that by working together with local Rotary Clubs they can enhance their ability to meet the needs of children and youth with special needs and their families in the North Bay, Muskoka and Parry Sound areas. They have identified several ways in which Rotarians can support One Kids Place. Please click here for a full list of their current needs: [One Kids Wishlist](#)

If your club is interested in supporting One Kids Place, please contact Jason Corbett at JasonC@onekidsplace.ca.
