

The Future of Rotary

A Millennial Story

Rotary is for old People

What Has Rotaract done for me

- • I've travelled the world to experience different cultures and participate in projects.
- • I've lived and studied abroad as a Rotary Ambassadorial Scholar.
- • I've attended four Rotary International Conventions (Montreal, Bangkok, Lisbon and Sydney) where I've heard from and connected with some truly impressive individuals who are making the world a better place.
- • I've attended RYLA (Rotary Youth Leadership Award), a week-long personal and professional development program that helps you figure out what you want in life and equips you with the skills you need to achieve your goals.
- • I've received training in leadership, time management, project planning, event coordination, public speaking, governance, and much more.
- • I've served on local, national and international committees, helping shape the future of this great organization.
- • I've been given free rein

Interact the Anarchy of Rotary

- Ages 12-18
- School based or Community Based
- Issues they face
- Issues we face
- Generation gaps

The end of Rotary

- Reason's not to start a Rotaract or Interact Club
 - There is no one young in our club??
 - Diversity is a catch phrase
 - There's no information on how to do this
 - We don't want to exist in 10 years
 - We don't need any more members
 - Youth become older anyways
