GET WITH THE PROGRAM!

Club Presidents, President Elects and New Generation Chairs:

This is the time of year when Rotary Clubs around the world start to recruit for their long-term exchange student. Students selected between now and November will go through a series of training weekends until they depart next summer. I wanted to take this opportunity to update you on the activities of our Youth Exchange Program and ask that you consider adding this program to your club if you don't already do so.

Our YEX Committee is excited to be joining our Rebounds and Inbounds at the upcoming District Conference. We are available to discuss the program with you at any time over that weekend so please reach out to us for more details. Our students also love to talk about their experiences so please chat with them when you get the opportunity.

We have significantly reduced the cost of the program and this, combined with more clubs participating, will make the program manageable for all clubs!

I'm available for questions by email: adurtnall@gmail.com or by phone 705-627-3816. We would love to double our number of outbound students this year! What's holding you back?

Yours in Rotary,
Alison Durtnall
District 7010 New Generations Chair
