Aedan Clarke's Adventure: The Finale

Hello, this is Aedan Clarke, and this will be my third and final BeaverTale of my exchange. It's hard to believe it's gone by this fast! I've had such a good time, and will definitely be visiting in the coming years! I've done a lot since the last report! I went to Norway on a cruise with my host family which was amazing! It was my first time on a cruise, and it was definitely the best one yet 😊.

I've been finishing up school here with my class, and getting all of my courses and school figured out in Canada now, which has been a little difficult because of how busy I've been! The weather here has been absolutely gorgeous! Almost 20 every day and not a lot of rain, which is unusual for Denmark!

My Eurotour starts in a week tomorrow, and I am super pumped for that. There will be 60 of us on either one or two buses, and we will be gone for 18 days, in 8 different countries! I've been spending a lot more time with my friends, because we all know my year is coming to an end. I think in the last week I have been outside with them for over 40 hours!

The sunsets are really getting beautiful here, and the water is warming up, and one of my friends has promised to take me kitesurfing, which would be amazing!

All of my sports competitions have started, so I am always sore from those, but they are such good fun I forget about it! I hate that I have to start packing, because it makes everything so much more real. My family here has joked about adoption and just sending my luggage home and hiding me in a closet!

I can't wait to possibly meet you future exchange students and also be back in Canada once again!

Vi ses for sidste gang,

Aedan Clarke
