Some thoughts from Arch Klumph

Matching people with money for positive results

In the words of Arch Klumph: "Money alone does little good. Individual service is helpless without money. The two together can be a godsend to civilization." Your financial resources combined with your time, energy and talent is critical to Rotary's mission. 89% of your contribution goes directly to the programs of The Rotary Foundation while 2% is used for administration and 9% is for fundraising. These percentages are remarkable among charities across the world. **This is why The Rotary Foundation gets such high marks from organizations that rank charities, such as Charity Navigator** and the Better Business Bureau.

The programs of The Rotary Foundation

When the Foundation's founder Arch C Klumph said: "The Rotary Foundation is not to build monuments of brick and stone. If we work upon marble, it will perish; if we work on brass, time will efface it...but if we work upon immortal minds, if we imbue them with the full meaning of the spirit of Rotary, we are engraving on those tablets something that will brighten all eternity. "

The educational, humanitarian and PolioPlus Programs are the monuments of the Rotary Foundation and Rotarians should be proud to yell it from the roof tops. We will eradicate polio, hunger and poverty. We will help the world find peace. By supporting the Rotary Foundation with an annual gift you help build these immortal monuments of Rotary.

As Rotarians, there is no better place to donate our money. We get to use our own contributions to do good in the world.

Make the Rotary foundation your charity of choice during our centennial year.

In 2013, Ian Lancaster, of the Rotary Club of Northumberland Sunrise, Ontario, in District 7070, led a vocational training team of medical professionals to Nagoya, Japan, in District 2760. The team, funded by a global grant, comprised a physician, a clinical nurse specialist, a spiritual care professional, a nurse practitioner, and a nursing supervisor. All had experience in palliative care, the branch of medicine that focuses on relieving patient suffering. A Japanese medical team traveled to Ontario to learn about Canadian approaches to this field.

The impact of Vocational Training Teams touches not only the beneficiaries of the grant, but the team members as well.
