

To Whom It May Concern:

As District Governors of Rotary District 7910, we would like to let you know that our Rotary District is offering a special scholarship for graduate study and research abroad. This scholarship is known as the **David and Eleanor Morley Endowed Global Grant Scholarship**.

One-year funding is available through this scholarship of up to \$35,000 for graduate study and or research internationally. Additional scholarship funding is not anticipated the following year. Areas of study identified by Rotary International are:

- Peace and conflict resolution
- Disease prevention and treatment
- Economic and community development
- Maternal and child health
- Water and sanitation
- Basic education and literacy

This is a great opportunity for the right person.

Study must begin in the Fall of 2017, and applications must be received by April 15, 2017. There is a series of steps that must be taken before the scholarship is granted. If you know of an interested college graduate, they may learn more at Rotary7910.org.

Please feel free to contact us for additional information.
