

From District 2430 Turkey

Project "GIVE A WOMAN A COW AND WATCH HER CHANGE THE WORLD"

Area of focus: Growing local economies

My name is Teoman Kaynar, and I am a member of Rotary Club of Samsun Karadeniz District 2430. We are doing an agricultural development project, which seeks to ensure economic growth for low-income women farmers around our city Samsun. With your support, we want to carry out the project titled "GIVE A WOMAN A COW AND WATCH HER CHANGE THE WORLD" within the scope of the Global Grant

Project. The project's Rotary foundation grant number is GG2016079. We are looking for partners who can contribute towards realizing this vision of the global grant project. At this stage, we are looking for donations and funds. More details about this project can be found in the document attached herewith. You can also visit our website at <https://www.samsunkaradenizrotary.org/jersey-cow-project> to learn more about the project.

We will greatly appreciate any amount that you can contribute to the project. These donations will be used towards the implementation of the project that will touch the lives of many low-income farmers in the region. We will be very happy to work with you on the agricultural development global grant project.

Best Wishes

Teoman Kaynar, M.D.
