

Rotary presents **Lets Talk About Addiction.**

Please join us for a community forum with leading public health experts and organizations to learn about the driving forces of addiction and what works to protect young people, families and communities from drug use and addiction.

Tuesday, May 29th 6pm – 9pm
The Price Center
27 Christina Street, Suite 201 • Newton, MA 02461

Rotary understands that addiction, like polio, is a preventable global disease. Rotarians in clubs across the country are mobilizing to help address the epidemic. This program is the launch of a new initiative to unite the community, the public health sector and drug prevention specialists to raise awareness about what perpetuates addiction and about ways to be part of the solution.

This program has been designed for easy replication and scalability, as a blueprint for individuals, community organizations, and Rotary Clubs across the country to deliver in their communities and regions.

This program is designed for Rotary Clubs and partnering stakeholders interested in taking action to reduce substance misuse and addiction.

Please consider attending to learn about running this short, interactive program in your local areas with groups of stakeholders wanting to mobilize, learn about and address addiction.

This program is hosted by the Rotary Club of Newton
