District Trustee Meeting

Newsletter

July 25, 2016

By Pat and Skip Doyle

A highlight of last week for us was the annual Leadership Meeting. Participants were able to bring forward many very innovative and useful ideas using facilitated format. These will be shared with all of you as we put them in spreadsheet form.

We would like to share a few of them now:

- · RYLA students attend meetings with their parents.
- Invite these parents to another club meeting.
- Invite parents to participate in a club project
- Get e-mail addresses and send them the club newsletter
- The same can be said for Interact and ESSEX added Phil Sandler of Brookline students.

We guess you can get the picture. There are ways to leverage your youth contacts to get new members. READ MORE

District Leadership Meeting is a huge success

District Governors Pat and Skip Doyle held their Leadership Meeting last Tuesday at the DoubleTree Hotel in Leominster. This is an annual event for which DGs bring their District leaders and committee chairs together to review the goals for the new Rotary year.

This, year the event was presented in a facilitated format. The results will be consolidated and sent to all attendees so that the District Goals for each committee can be set.

Membership Corner: Are we volunteers – or are we Rotarians? What's the difference?

By Tom Sturiale

Often we are asked, "What is Rotary?" A quick response is, "We are a service club." Our motto is "Service Above Self!" followed by

"We are a volunteer organization." I suppose those responses are better than nothing. But do they suffice, and do they really capture the essence of Rotary? When faced with difficult questions, I tend to revert back to fundamentals. READ MORE

When was the last time there was polio in Europe? If you guessed 2002, the year the region was certified polio-free, you were wrong. The last time polio affected a child in Europe was last summer. In 2015, two Ukrainian children were diagnosed with paralytic polio. Given the way the disease manifests itself, that means many more were likely infected and didn't show symptoms. At least one Western news outlet deemed the outbreak "crazy" - but the reality is that no place on Earth is safe from polio until the disease is eradicated everywhere.
