

Be Proactive in Involving Club Members in Membership Growth

E-mail each member in your club the attached Membership Proposal Form and urge them to return it filled out to you within a week or to the next meeting.

(Set yourself a benchmark to achieve at least a 50% return rate – well, perhaps 100%?)

Do this now and you can approach prospects first thing in the new year when everybody is open to commit to new good things!

(Don't forget though – **keep those Retention Committees active so that you keep all the members you already have in your club!!)**
